UNITED STATES DEPARTMENT OF AGRICULTURE

STATISTICAL SUMMARY OF EMPLOYMENT

January, 1950

Prepared by:  
Office of Personnel  
Division of Employment  
2-16-50

## DEFINITIONS OF TERMS USED FOR REPORTING PURPOSES

1. Full-time is the minimum number of hours constituting the official work week for a particular group or class of employees.
2. Part-time employees are those regularly employed on a pre-arranged schedule, whose hours or days of work are less than the prescribed hours or days of work for full-time employees in the same group or class.
3. Intermittent employees are those employed on an irregular or occasional basis whose hours or days of work are not based on a pre-arranged schedule and who are compensated only for the time when actually employed or for services actually rendered.
4. W.O.C. (Without Compensation) represents those engaged to perform services on a regular or intermittent basis whose appointment does not provide for salary or wage payments. (Also includes \$1 per annum employees whenever reported, inasmuch as the small number does not warrant a separate category.)
5. Casual employees are those hired informally "on the spot" for short intervals of time in connection with emergency work.
6. Persons on leave without pay are those currently in a nonpay status for scheduled periods longer than 30 days (other than furlough by reduction in force).
7. Washington, D. C. Metropolitan Area includes the District of Columbia; Alexandria City, Arlington and Fairfax Counties, Virginia; and Montgomery and Prince Georges Counties, Maryland.
8. Turnover Formula: Full-time accessions or separations divided by the average number of full-time employees for the period reported (the number of full-time employees at the end of the past period plus the number of full-time employees at the end of the period reported, divided by two.)

## SUMMARY OF GROUPS OF EMPLOYEES REGULARLY EXCLUDED FROM THE MONTHLY REPORTS

Except for exclusions as cited in headings or footnotes on tables in this summary the following persons are not included in any of the tables shown:

1. All persons on a scheduled leave without pay period longer than thirty days.
2. All persons placed on furlough by reason of Reduction-in-force after the last day of active duty specified in the reduction-in-force notice.
3. Casual employees (those employees hired informally by pickup "on the spot", for a definite job usually of short duration, and includes such classes as harvest hands, laborers on forest roads and trail work emergency fire fighters). The number of casual employees will be reported from time to time when complete reports are received.
4. Personnel cooperating or collaborating with, but not appointed nor paid by the Department of Agriculture (included in this group are: AAA County Committeemen, and county employees other than committeemen, extension agents, REA cooperatives, Civilian Public Service Assignees, crop reports, etc). The number of these persons will be reported annually, as soon as possible after June 30 of each year.

Decrease	- 257	- 211

Full-time employment of the Department of Agriculture numbered 58,570 on January 31, 1950 as compared with 58,699 on December 31, 1949. Part-time and intermittent employees totaled 12,628 compared with 12,119 on December 31, 1949.

Total paid employment on January 31, 1950 was 71,198, an increase of 212 since the December 31, 1949 figure. This figure applies to total paid employment in the Department, including employees outside the continental limits of the United States, and part-time workers as well as those regularly employed.

The increase in part-time and intermittent employment in the Bureau of Agricultural Economics was attributable to enumerative surveys conducted under the Research and Marketing Act and preliminary work on the housing survey.

The increase in the full-time employment in the Farmers Home Administration resulted from the need for additional personnel to administer the Housing Program authorized by the Housing Act of 1949, Public Law #171 (81st Congress). The part-time and intermittent employment (mainly state and county committeemen) in the Farmers Home Administration will vary from month to month due to the reporting of such employees only when they actually perform service during the reporting period.

The decrease in full-time and part-time and intermittent employment in the Forest Service was due to curtailment of road construction and brush disposal activities because of weather conditions.

The decrease in the part-time and intermittent employment in the Soil Conservation Service was due to termination of part-time seasonal workers.

## TURNOVER

The separations of total full-time personnel within the continental limits of the United States, including temporary as well as regular salaried employees from the Department for January, 1950 totaled 1,556 or 2.8 percent, a decrease of 1.0 percent since December 31, 1949. There were 126 separations or 1.2 percent in the Washington, D. C. Metropolitan Area, an increase of 0.4 percent since December 31, 1949,

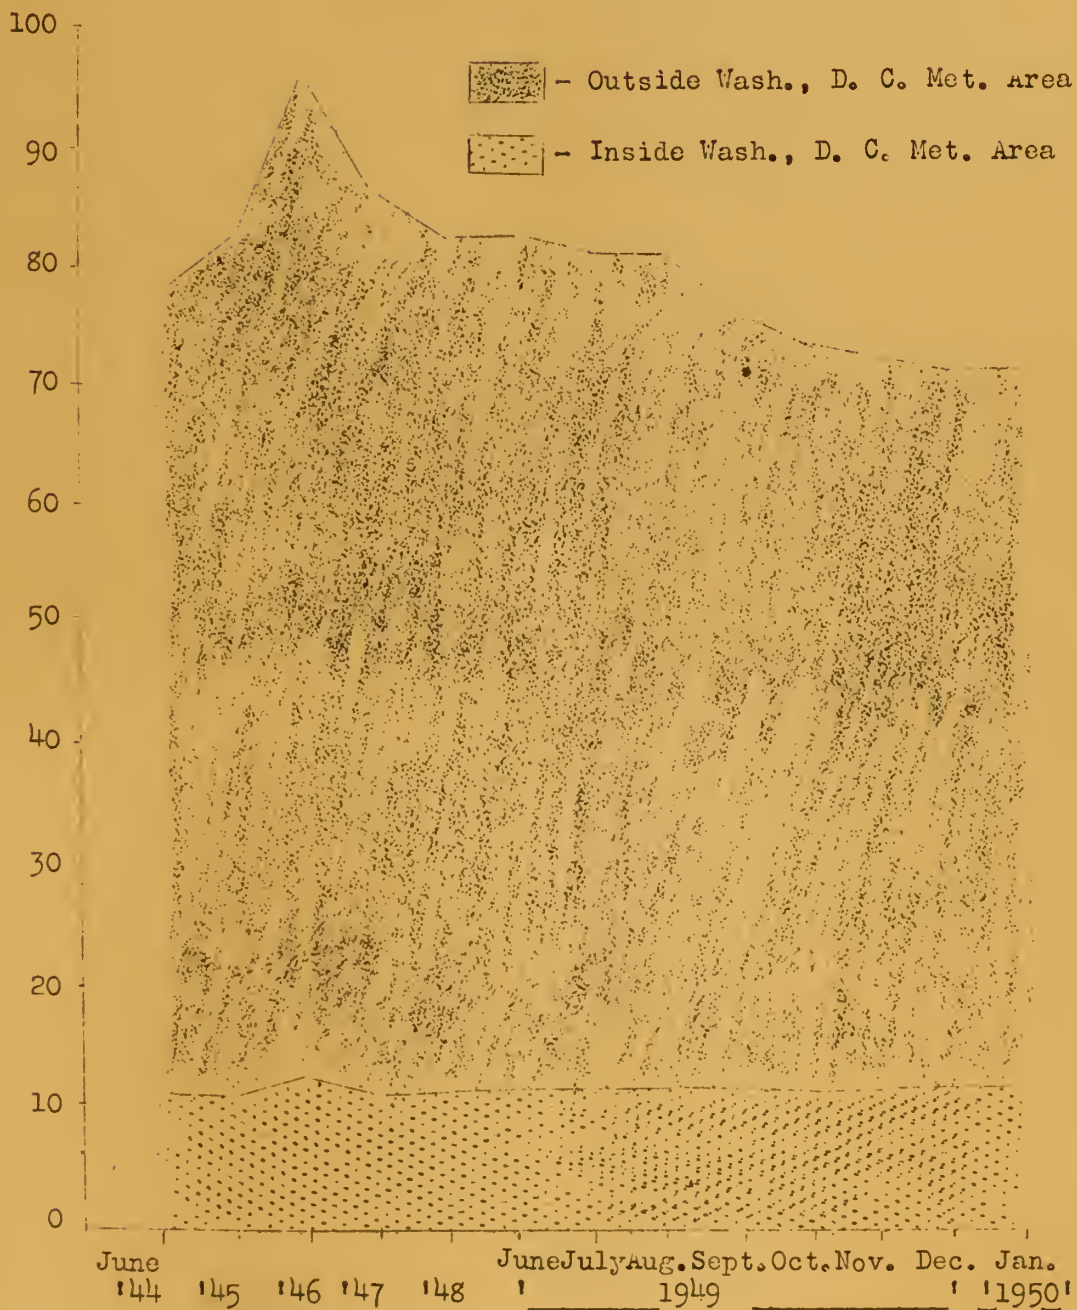

and there were 1,430 separations, or 3.1 percent Outside the Washington, D. C. Metropolitan Area, a decrease of 1.4 percent for the same period.

The greatest percentage of separations fell in the termination group which consists mainly of the expiration of temporary appointments.

Increase	+ 230	+ 247

Full-time employment of the Department of Agriculture numbered 58,896 on February 2 1950 as compared with 58,570 on January 31, 1950. Part-time and intermittent employees totaled 12,085 compared with 12,628 on January 31, 1950.

Total paid employment on February 28, 1950, was 70,981, a decrease of 217 since the January 31, 1950 figure. This figure applies to total paid employment in the Department, including employees outside the continental limits of the United States, and part-time workers as well as those regularly employed.

The increase in full-time in the Farmers Home Administration represents additional personnel needed to administer the Housing program. The part-time and intermittent employment (mainly state and county committeemen) in the Farmers Home Administration will vary from month to month due to the reporting of such employees only when they actually perform service during the reporting period.

## TURNOVER

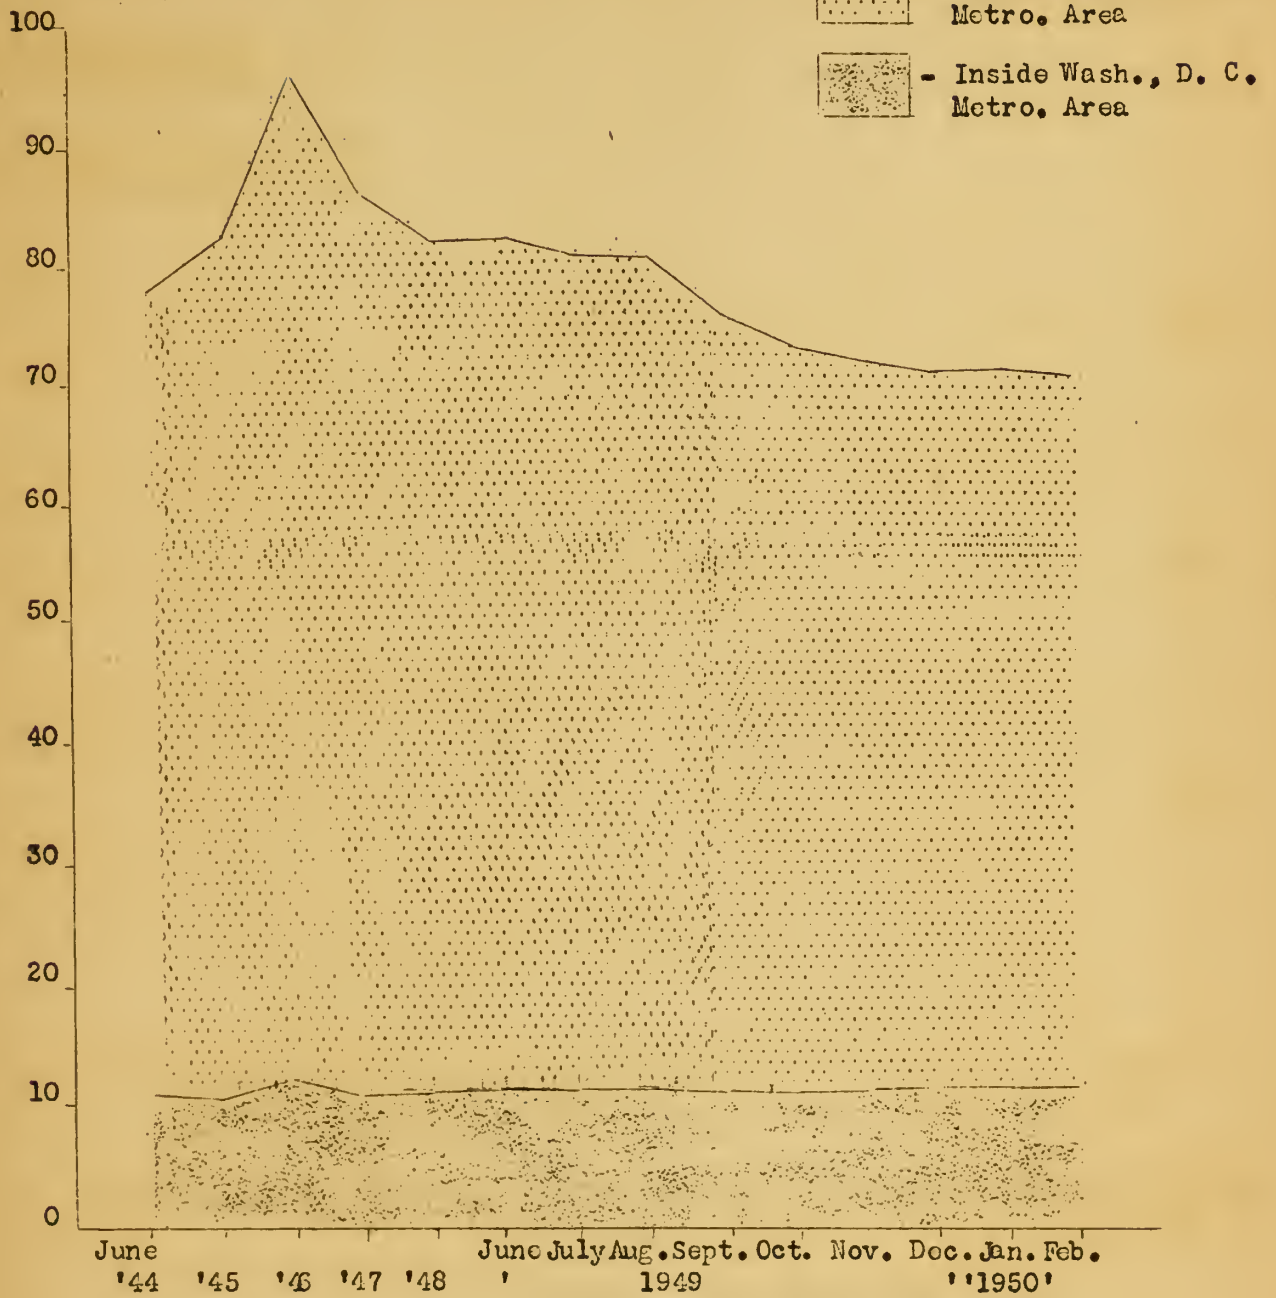

The separations of total full-time personnel within the continental limits of the United States, including temporary as well as regular salaried employees from the Department for February 1950 amounted to 983, or 1.7 percent. This represents a decrease of 1.1 percent since January 31, 1950. There were 114 separations or 1.0 percent in the Washington, D. C. Metropolitan Area, a decrease of 0.2 percent since January 31, 1950. Outside the Washington, D. C. Metropolitan Area there were 869 separations or 1.9 percent, a decrease of 1.2 percent since January 31, 1950.

The greatest percentage of separations fell in the termination group which consists mainly of expiration of temporary appointments.

UNITED STATES DEPARTMENT OF AGRICULTURE

STATISTICAL SUMMARY OF EMPLOYMENT

March, 1950

Prepared by:  
Office of Personnel  
Division of Employment  
4-18-50

## DEFINITIONS OF TERMS USED FOR REPORTING PURPOSES

1. Full-time is the minimum number of hours constituting the official work week for a particular group or class of employees.
2. Part-time employees are those regularly employed on a pre-arranged schedule, whose hours or days of work are less than the prescribed hours or days of work for full-time employees in the same group or class.
3. Intermittent employees are those employed on an irregular or occasional basis whose hours or days of work are not based on a pre-arranged schedule and who are compensated only for the time when actually employed or for services actually rendered.
4. W.O.C. (Without Compensation) represents those engaged to perform services on a regular or intermittent basis whose appointment does not provide for salary or wage payments.
5. Casual employees are those hired informally "on the spot" for short intervals of time in connection with emergency work.
6. Persons on leave without pay are those currently in a nonpay status for scheduled periods longer than 30 days (other than furlough by reduction in force).
7. Washington, D. C. Metropolitan Area includes the District of Columbia; Alexandria City, Arlington and Fairfax Counties, Virginia; and Montgomery and Prince Georges Counties, Maryland.
8. Turnover Formula: Full-time accessions or separations divided by the average number of full-time employees for the period reported (the number of full-time employees at the end of the past period plus the number of full-time employees at the end of the period reported, divided by two.)

### SUMMARY OF GROUPS OF EMPLOYEES REGULARLY EXCLUDED FROM THE MONTHLY REPORTS

Except for exclusions as cited in headings or footnotes on tables in this summary the following persons are not included in any of the tables shown:

1. All persons on a scheduled leave without pay period longer than thirty days.
2. All persons placed on furlough by reason of Reduction-in-force after the last day of active duty specified in the reduction-in-force notice.
3. Casual employees (those employees hired informally by pickup "on the spot", for a definite job usually of short duration, and includes such classes as harvest hands, laborers on forest roads and trail work emergency fire fighters). The number of casual employees will be reported from time to time when complete reports are received.
4. Personnel cooperating or collaborating with, but not appointed nor paid by the Department of Agriculture (included in this group are: PMA County Committeemen, and county employees other than committeemen, extension agents, REA cooperatives, Civilian Public Service Assignees, crop reports, etc). The number of these persons will be reported annually, as soon as possible after June 30 of each year.

No. of Empl. as of 3-31-50	46,237	48,432
Increase	+ 595	+ 632

Full-time employment of the Department of Agriculture numbered 59,535 on March 31, 1950, as compared with 58,699 on December 31, 1949. Part-time and intermittent employees totaled 12,553 compared with 12,287 on December 31, 1949.

Total paid employment on March 31, 1950, was 72,088, an increase of 1,102 since the December 31, 1949 figure. This figure applies to total paid employment in the Department, including employees outside the continental limits of the United States and part-time workers as well as those regularly employed.

The increase in full-time employment in the Farmers Home Administration resulted from the need for additional personnel to administer the Housing program authorized by the Housing Act of 1949, Public Law No. 171, 81st Congress and the Disaster Loan Program. The part-time and intermittent employment (mainly state and county committeemen) in the Farmers Home Administration will vary from month to month due to the reporting of such employees only when they actually perform service during the reporting period.

The increase in the Bureau of Agricultural Economics was attributable to enumerative surveys conducted under the Research and Marketing Act and preliminary work on the housing survey.

The increase in Forest Service represents the spring acceleration of work on the national forests.

The REA telephone program is responsible for the increase in full-time employment in the Rural Electrification Administration.

No. of Empl. as of 3-31-50	46,237	48,432
Increase	622	596

Full-time employment of the Department of Agriculture numbered 59,535 on March 31, 1950, as compared with 58,896 on February 28, 1950. Part-time and intermittent employees totaled 12,553 compared with 12,085 on February 28, 1950.

The increase in full-time employment in the Farmers Home Administration resulted in the need for additional personnel to administer the Housing program and the Disaster Loan Program. The part-time and intermittent employment (mainly State and County Committeemen) will vary from month to month due to the reporting of such employees only when they actually perform service during the reporting period.

The decrease in the Bureau of Agricultural Economics resulted from the completion of field work in connection with some of the enumerative surveys under the Research and Marketing Act.

Turnover in employment in Mexico and in the intermittent group accounted for the decrease in the Bureau of Animal Industry.

Seasonal work caused the increase in the Bureau of Plant Industry, Soils and Agricultural Engineering, in the Forest Service and in the Soil Conservation Service.

CASUAL EMPLOYMENT

Casual employees (not included in the regular monthly reports of employment) are reported whenever information is received. For the month of February, 1950 there were 2,113 casual employees in the Department, representing an increase of 1,725 since the January, 1950 figure. The Forest Service was the only bureau employing casual personnel during the month of February, 1950.

FEMALE EMPLOYMENT

THIRD QUARTER, FISCAL YEAR, 1950

There was an increase of 412 in the total paid female employees in the Department since December 31, 1949. The total number of paid female employees, 17,582, on March 31, 1950, represents 24.4 percent of total paid employees of the Department.

PERSONNEL TURNOVER

THIRD QUARTER, FISCAL YEAR, 1950

Accessions to regular full-time employees totaled 4,304 during the quarter ending March 31, 1950, excluding transfers between reporting units. There were 1,217 excepted appointments; 387 inter-agency transfers; 16 reemployments and return from

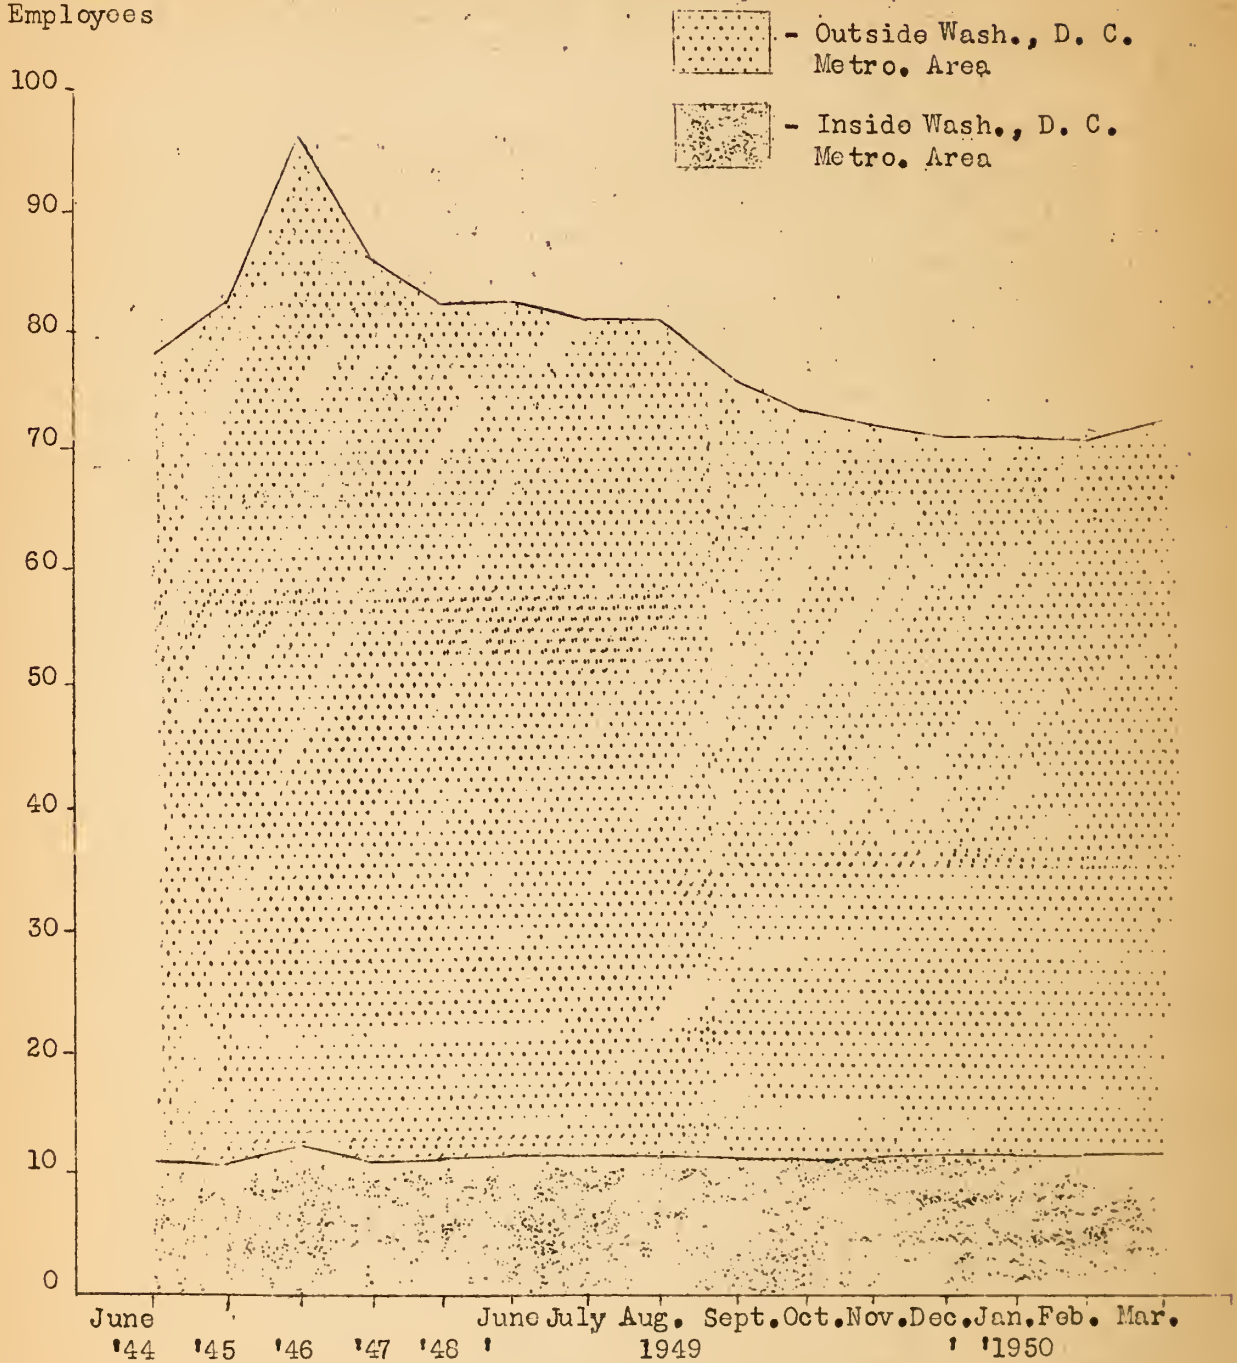

military service; 306 returns to duty; 309 reinstatements; 860 probationary appointments; 749 temporary appointments for a limited period; and 460 temporary appointments for an indefinite period. Excepted appointments represent 28.3 percent of all accessions to the Department and probationary appointments represent 20.0 percent of all accessions to the Department. The accession rate of full-time personnel for the third quarter of the Fiscal Year, 1950 was 7.6 percent. This represents an increase of 0.1 percent from the accession rate of 7.5 percent for the second quarter, Fiscal Year, 1950.

Separations of regular full-time personnel from the Department amounted to 3,563 during the third quarter and consisted of 111 inter-agency transfers; 4 for military furlough; 840 who quit; 20 by removals, disqualifications and inefficiency; 101 by reduction in force; 524 extended leave without pay; 1,782 by termination; and 181 others. The separation rate for the same period was 6.3 percent. The rates for Inside the D. C. Metropolitan area were: Separations 3.0 percent, Accessions 4.5 percent, an excess of accessions over separations 1.5 percent. The rates for Outside the D. C. Metropolitan area were: Separations 7.0 percent, Accessions 8.3 percent, an excess of Accessions over Separations of 1.3 percent.

The turnover rate excluding the separations of temporary personnel and the separations due to reduction in force for the third quarter of the fiscal year, 1950 was 3.1 percent, and for the month of March 1.1 percent.

UNITED STATES DEPARTMENT OF AGRICULTURE

STATISTICAL SUMMARY OF EMPLOYMENT

April, 1950

Prepared by:  
Office of Personnel  
Division of Employment  
5-17-50

## DEFINITIONS OF TERMS USED FOR REPORTING PURPOSES

1. Full-time is the minimum number of hours constituting the official work week for a particular group or class of employees.
2. Part-time employees are those regularly employed on a pre-arranged schedule, whose hours or days of work are less than the prescribed hours or days of work for full-time employees in the same group or class.
3. Intermittent employees are those employed on an irregular or occasional basis whose hours or days of work are not based on a pre-arranged schedule and who are compensated only for the time when actually employed or for services actually rendered.
4. W.O.C. (Without Compensation) represents those engaged to perform services on a regular or intermittent basis whose appointment does not provide for salary or wage payments.
5. Casual employees are those hired informally "on the spot" for short intervals of time in connection with emergency work.
6. Persons on leave without pay are those currently in a nonpay status for scheduled periods longer than 30 days (other than furlough by reduction in force).
7. Washington, D. C. Metropolitan Area includes the District of Columbia; Alexandria City, Arlington and Fairfax Counties, Virginia; and Montgomery and Prince Georges Counties, Maryland.
8. Turnover Formula: Full-time accessions or separations divided by the average number of full-time employees for the period reported (the number of full-time employees at the end of the past period plus the number of full-time employees at the end of the period reported, divided by two.)

## SUMMARY OF GROUPS OF EMPLOYEES REGULARLY EXCLUDED FROM THE MONTHLY REPORTS

Except for exclusions as cited in headings or footnotes on tables in this summary the following persons are not included in any of the tables shown:

1. All persons on a scheduled leave without pay period longer than thirty days.
2. All persons placed on furlough by reason of reduction-in-force after the last day of active duty specified in the reduction-in-force notice.
3. Casual employees (those employees hired informally by pickup "on the spot", for a definite job usually of short duration, and includes such classes as harvest hands, laborers on forest roads and trail work emergency fire fighters). The number of casual employees will be reported from time to time when complete reports are received.
4. Personnel cooperating or collaborating with, but not appointed nor paid by the Department of Agriculture (included in this group are: PMA County Committeemen, and county employees other than committeemen, extension agents, REA cooperatives, Civilian Public Service Assignees, crop reporters, etc). The number of these persons will be reported annually, as soon as possible after June 30 of each year.

No. of Empl. as of 4-30-50	47,660	49,842
Increase	<u>1,423</u>	<u>1,410</u>

Full-time employment of the Department of Agriculture numbered 60,952 on April 30, 1950, as compared with 59,535 on March 31, 1950. Part-time and intermittent employees totaled 13,249 compared with 12,553 on March 31, 1950.

Total paid employment on April 30, 1950, was 74,201, an increase of 2,113 since the March 31, 1950 figure. This figure applies to total paid employment in the Department including employees outside the continental limits of the United States and part-time workers as well as those regularly employed.

The increase in full-time and part-time and intermittent employment in the Bureau of Entomology and Plant Quarantine, the Bureau of Plant Industry, Soils and Agricultural Engineering, the Federal Crop Insurance Corporation, the Forest Service and the Soil Conservation Service was caused by the activation of seasonal work.

The decrease in part-time and intermittent employees in the Farmers Home Administration is accounted for by the fact that fewer committeemen performed service during the reporting period. The FHA part-time and intermittent employment (mainly State and County Committeemen) will vary from month to month due to the reporting of such employees only when they actually perform service during the reporting period.

## TURNOVER

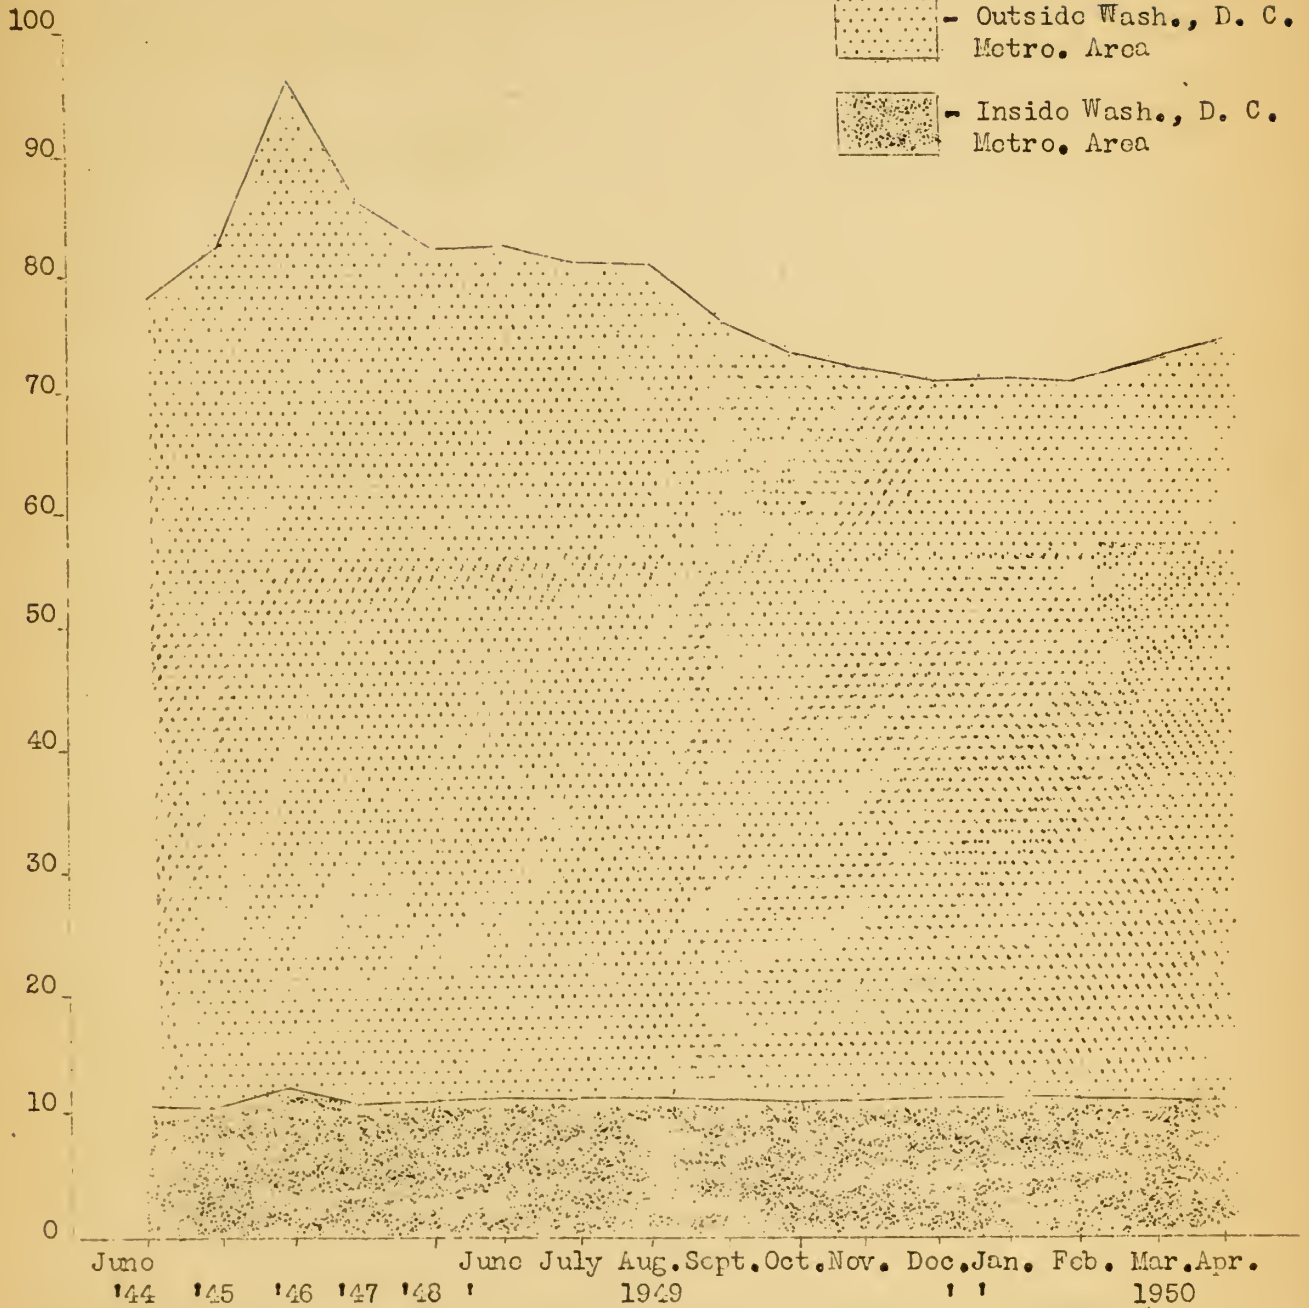

The separations of total full-time personnel within the continental limits of the United States, including temporary as well as regular salaried employees, from the Department for April, 1950, amounted to 983, or 1.7 percent. This represents a decrease of 0.1 percent since March 31, 1950. There were 107 separations or 1.0 percent in the Washington, D. C. Metropolitan Area, an increase of 0.2 percent since March 31, 1950. Outside the Washington, D. C. Metropolitan Area there were 876 separations or 1.9 percent, a decrease of 0.1 percent since March 31, 1950.

The greatest percentage of separations fell in the termination group, which consist mainly of expiration of temporary appointments. The next highest percentage of separations fell in the resignation group.

UNITED STATES DEPARTMENT OF AGRICULTURE

STATISTICAL SUMMARY OF EMPLOYMENT

May, 1950

Prepared by:  
Office of Personnel  
Division of Employment  
6-16-50

## DEFINITIONS OF TERMS USED FOR REPORTING PURPOSES

1. Full-time is the minimum number of hours constituting the official work week for a particular group or class of employees.
2. Part-time employees are those regularly employed on a pre-arranged schedule, whose hours or days of work are less than the prescribed hours or days of work for full-time employees in the same group or class.
3. Intermittent employees are those employed on an irregular or occasional basis whose hours or days of work are not based on a pre-arranged schedule and who are compensated only for the time when actually employed or for services actually rendered.
4. W.O.C. (Without Compensation) represents those engaged to perform services on a regular or intermittent basis whose appointment does not provide for salary or wage payments.
5. Casual employees are those hired informally "on the spot" for short intervals of time in connection with emergency work.
6. Persons on leave without pay are those currently in a nonpay status for scheduled periods longer than 30 days (other than furlough by reduction in force).
7. Washington, D. C. Metropolitan Area includes the District of Columbia; Alexandria City, Arlington and Fairfax Counties, Virginia; and Montgomery and Prince Georges Counties, Maryland.
8. Turnover Formula: Full-time accessions or separations divided by the average number of full-time employees for the period reported (the number of full-time employees at the end of the past period plus the number of full-time employees at the end of the period reported, divided by two.)

### SUMMARY OF GROUPS OF EMPLOYEES REGULARLY EXCLUDED FROM THE MONTHLY REPORTS

Except for exclusions as cited in headings or footnotes on tables in this summary the following persons are not included in any of the tables shown:

1. All persons on a scheduled leave without pay period longer than thirty days.
2. All persons placed on furlough by reason of reduction-in-force after the last day of active duty specified in the reduction-in-force notice.
3. Casual employees (those employees hired informally by pickup "on the spot", for a definite job usually of short duration, and includes such classes as harvest hands, laborers on forest roads and trail work emergency fire fighters). The number of casual employees will be reported from time to time when complete reports are received.
4. Personnel cooperating or collaborating with, but not appointed nor paid by the Department of Agriculture (included in this group are: PMA County Committeemen, and county employees other than committeemen, extension agents, IEA cooperatives, Civilian Public Service Assignees, crop reporters, etc). The number of these persons will be reported annually, as soon as possible after June 30 of each year.

No. of Empl. as of 5-31-50	49,956	52,201
Increase	2,296	2,359

Full-time employment of the Department of Agriculture numbered 63,273 on May 31, 1950, as compared with 60,952 on April 30, 1950. Part-time and intermittent employees totaled 14,393 compared with 13,249 on April 30, 1950.

Total paid employment on May 31, 1950, was 77,666, and increase of 3,465 since the April 30, 1950, figure. This figure applies to total paid employment in the Department including employees outside the continental limits of the United States and part-time workers as well as those regularly employed.

The increase in full-time, part-time and intermittent employment in the Bureau of Entomology and Plant Quarantine and the Forest Service, and the increase in part-time and intermittent employment in the Soil Conservation service was the result of seasonal activities.

The increase in part-time and intermittent employment in the Bureau of Agricultural Economics was caused by the enumerative Farm Housing Survey.

Program activities in the State, Insular and Commodity Offices accounted for the increase in full-time, part-time and intermittent employment in the Production and Marketing Administration.

The decrease in part-time and intermittent employees in the Farmers Home Administration is the result of the performance of service by fewer Committeemen during the reporting period. The FHA part-time and intermittent employment (mainly, State and County Committeemen) will vary from month to month due to the reporting of such employees only when they actually perform service during the reporting period.

## TURNOVER

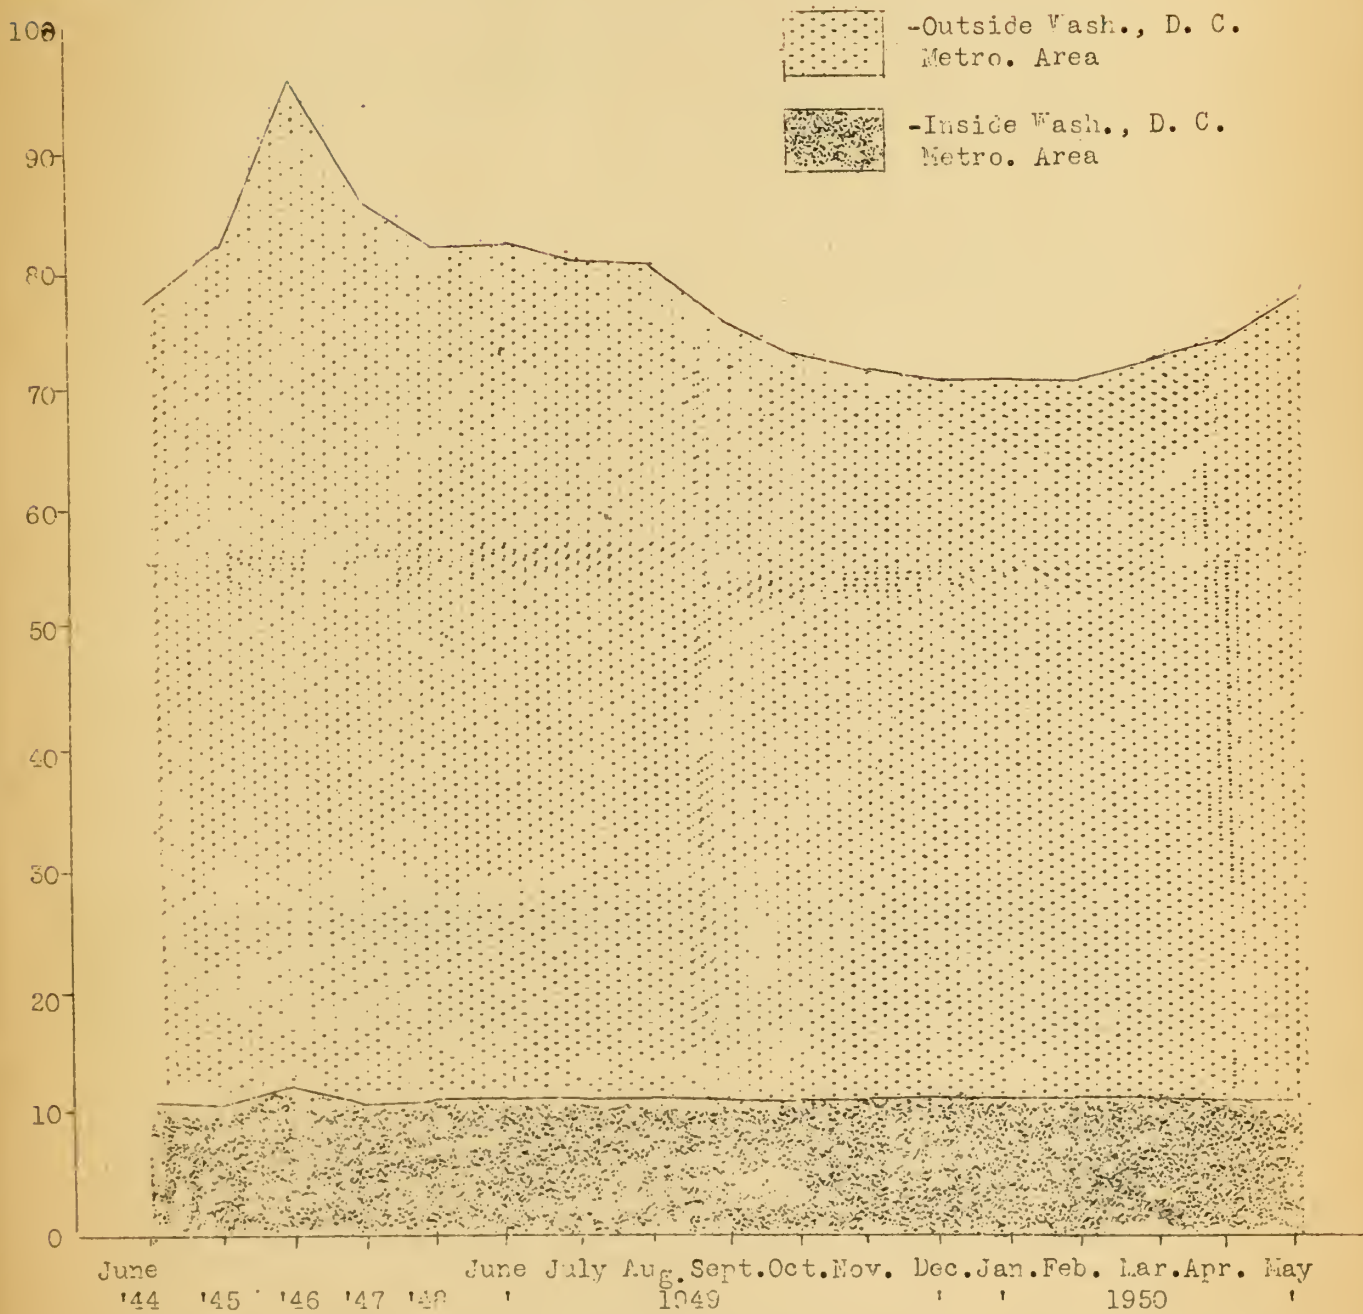

The separations from the Department for May, 1950, of total full-time personnel within the continental limits of the U. S., including temporary as well as regular salaried employees amounted to 1,395, or 2.3 percent. This represents an increase of 0.6 percent since April 30, 1950. There were 156 separations or 1.4 percent in the Washington D. C. Metropolitan Area, an increase of 0.4 percent since April 30, 1950. Outside the Washington D. C. Metropolitan Area there were 1,239 separations or 2.5 percent, an increase of 0.6 percent since April 30, 1950.

The greatest percentage of separations fall in the termination group which consists mainly of expiration of temporary appointments.

UNITED STATES DEPARTMENT OF AGRICULTURE

STATISTICAL SUMMARY OF EMPLOYMENT

June, 1950

Prepared by:  
Office of Personnel  
Division of Employment  
7-18-50

## DEFINITIONS OF TERMS USED FOR REPORTING PURPOSES

1. Full-time is the minimum number of hours constituting the official work week for a particular group or class of employees.
2. Part-time employees are those regularly employed on a pre-arranged schedule, whose hours or days of work are less than the prescribed hours or days of work for full-time employees in the same group or class.
3. Intermittent employees are those employed on an irregular or occasional basis whose hours or days of work are not based on a pre-arranged schedule and who are compensated only for the time when actually employed or for services actually rendered.
4. W.O.C. (Without Compensation) represents those engaged to perform services on a regular or intermittent basis whose appointment does not provide for salary or wage payments.
5. Casual employees are those hired informally "on the spot" for short intervals of time in connection with emergency work.
6. Persons on leave without pay are those currently in a nonpay status for scheduled periods longer than 30 days (other than furlough by reduction in force).
7. Washington, D. C. Metropolitan Area includes the District of Columbia; Alexandria City, Arlington and Fairfax Counties, Virginia; and Montgomery and Prince Georges Counties, Maryland.
8. Turnover Formula: Full-time accessions or separations divided by the average number of full-time employees for the period reported (the number of full-time employees at the end of the past period plus the number of full-time employees at the end of the period reported, divided by two.)

### SUMMARY OF GROUPS OF EMPLOYEES REGULARLY EXCLUDED FROM THE MONTHLY REPORTS

Except for exclusions as cited in headings or footnotes on tables in this summary the following persons are not included in any of the tables shown:

1. All persons on a scheduled leave without pay period longer than thirty days.
2. All persons placed on furlough by reason of reduction-in-force after the last day of active duty specified in the reduction-in-force notice.
3. Casual employees (those employees hired informally by pickup "on the spot", for a definite job usually of short duration, and includes such classes as harvest hands, laborers on forest roads and trail work emergency fire fighters). The number of casual employees will be reported from time to time when complete reports are received.
4. Personnel cooperating or collaborating with, but not appointed nor paid by the Department of Agriculture (included in this group are: PMA County Committeemen, and county employees other than committeemen, extension agents, REA cooperatives Civilian Public Service Assignees, crop reporters, etc). The number of those persons will be reported annually, as soon as possible after June 30 each year.

Increase	9,072	9,138

Full-time employment of the Department of Agriculture numbered 68,649 on June 30, 1950, as compared with 59,535 on March 31, 1950. Part-time and intermittent employees totaled 15,358 compared with 12,553 on March 31, 1950.

Total paid employment on June 30, 1950, was 84,007, an increase of 11,919 since March 31, 1950. This figure applies to total paid employment in the Department, including employees outside the continental limits of the United States, and part-time workers as well as those regularly employed.

The part-time and intermittent employment (mainly State and County Committeemen) in the Farmers Home Administration varies from month to month due to the reporting of such employees only when they actually perform service during the reporting period.

The increase in the Bureau of Agricultural Economics was attributable to the enumerative Farm Housing Survey.

The decrease in the Bureau of Agricultural and Industrial Chemistry was the result of proposed reduction in funds for the fiscal year 1951.

Increases in the Bureau of Entomology and Plant Quarantine, the Bureau of Plant Industry, Soils and Agricultural Engineering, the Forest Service and the Soil Conservation Service were the results of seasonal activities.

No. of Empl. as of 6-30-50	<u>55,309</u>	<u>57,570</u>
Increase	5,353	5,369

Full-time employment of the Department of Agriculture numbered 68,649 on June 30, 1950, as compared with 63,273 on May 31, 1950. Part-time and intermittent employment totaled 15,358 compared with 14,393 on May 31, 1950.

Total paid employment on June 30, 1950, was 84,007, an increase of 6,341 since May 31, 1950. This figure applies to total paid employment in the Department including employees outside the continental limits of the United States and part-time workers as well as those regularly employed.

Increases in the Bureau of Entomology and Plant Quarantine, the Bureau of Plant Industry, Soils and Agricultural Engineering, the Forest Service and the Soil Conservation Service were the result of seasonal activities.

The increase in the Bureau of Agricultural Economics was due to enumerative surveys and seasonal summer employment.

The Bureau of Agricultural and Industrial Chemistry decreased in full-time employment due to proposed reductions in funds for the coming fiscal year.

Fewer Committeemen performed service during the reporting month, which accounts for the decrease in part-time and intermittent employment of the Farmers Home Administration.

CASUAL EMPLOYMENT.

Casual employees (not included in the regular monthly reports of employment) are reported whenever information is received. For the month of May, 1950, there were 6,382 casual employees in the Department representing a decrease of 2,531 since the April, 1950, figure. The Forest Service was the only bureau employing casual personnel during the month of May, 1950.

FEMALE EMPLOYMENT.

FOURTH QUARTER, FISCAL YEAR, 1950.

There was an increase of 602 in the total paid female employees of the Department since March 31, 1950. The total number of paid female employees, 18,184, on June 30, 1950 represents 21.6% of the total paid employees of the Department.

PERSONNEL TURNOVER.

FOURTH QUARTER, FISCAL YEAR, 1950.

Accessions to regular full-time employees totaled 13,609 during the quarter ending June 30, 1950, excluding transfers between reporting units. There were 8,869 excepted appointments; 221 inter-agency transfers; 10 reemployments and returns from military service; 695 returns to duty; 160 reinstatements; 735 probationary appointments; 2,545 temporary appointments for a limited period; and 374 temporary appointments for an indefinite period. Excepted appointments represent 65.2 percent of all accessions to the Department. The accession rate of full-time personnel for the fourth quarter of the Fiscal Year 1950 was 22.0%. This represents an increase of 14.4 percent from the third quarter of the Fiscal Year 1950.

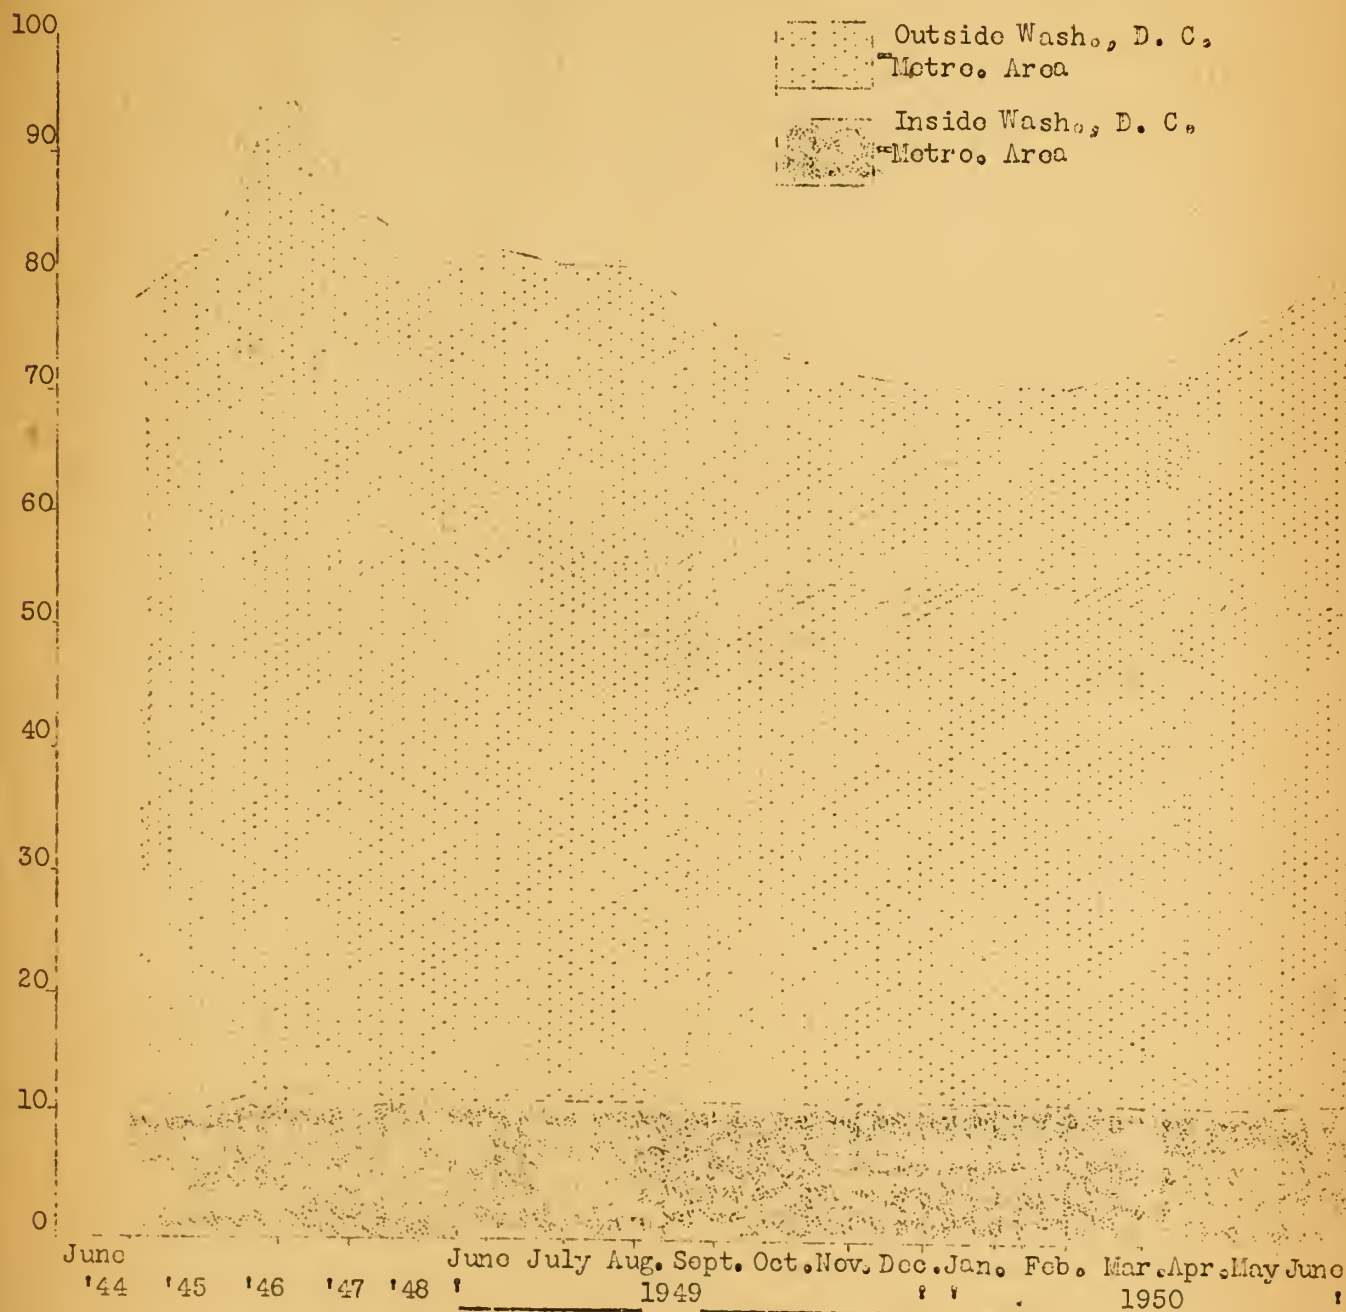

Separations of regular full-time personnel from the Department amounted to 4,597 during the fourth quarter and consisted of 128 inter-agency transfers; 1,246 who quit; 46 by removals, disqualifications, and inefficiency; 186 by reduction in force; 335 extended leave without pay; 2,460 by termination; and 196 others. The separation rate for the same period was 7.4 percent. The rates for the Washington Area were: separations 4.1 percent, accessions 3.8 percent, an excess of separations over accessions of 0.3 percent. The rates for outside the Washington Area were: separations 8.2 percent, accessions 26.0 percent an excess of accessions over separations of 17.8 percent.

The turnover rate excluding the separations of temporary limited personnel and the separations due to reduction in force for the fourth quarter of the fiscal year 1950 was 3.1 percent and for the month of June 1.1 percent.

UNITED STATES DEPARTMENT OF AGRICULTURE

STATISTICAL SUMMARY OF EMPLOYMENT

July, 1950

Prepared by:  
Office of Personnel  
Division of Employment  
8-16-50

## DEFINITIONS OF TERMS USED FOR REPORTING PURPOSES

1. Full-time is the minimum number of hours constituting the official work week for a particular group or class of employees.
2. Part-time employees are those regularly employed on a pre-arranged schedule, whose hours or days of work are less than the prescribed hours or days of work for full-time employees in the same group or class.
3. Intermittent employees are those employed on an irregular or occasional basis whose hours or days of work are not based on a pre-arranged schedule and who are compensated only for the time when actually employed or for services actually rendered.
4. W.O.C. (Without Compensation) represents those engaged to perform services on a regular or intermittent basis whose appointment does not provide for salary or wage payments.
5. Casual employees are those hired informally "on the spot" for short intervals of time in connection with emergency work.
6. Persons on leave without pay are those currently in a nonpay status for scheduled periods longer than 30 days (other than furlough by reduction in force).
7. Washington, D. C. Metropolitan Area includes the District of Columbia; Alexandria City, Arlington and Fairfax Counties, Virginia; and Montgomery and Prince Georges Counties, Maryland.
8. Turnover Formula: Full-time accessions or separations divided by the average number of full-time employees for the period reported (the number of full-time employees at the end of the past period plus the number of full-time employees at the end of the period reported, divided by two.)

### SUMMARY OF GROUPS OF EMPLOYEES REGULARLY EXCLUDED FROM THE MONTHLY REPORTS

Except for exclusions as cited in headings or footnotes on tables in this summary the following persons are not included in any of the tables shown:

1. All persons on a scheduled leave without pay period longer than thirty days.
2. All persons placed on furlough by reason of reduction-in-force after the last day of active duty specified in the reduction-in-force notice.
3. Casual employees (those employees hired informally by pickup "on the spot", for a definite job usually of short duration, and includes such classes as harvest hands, laborers on forest roads and trail work emergency fire fighters). The number of casual employees will be reported from time to time when complete reports are received.
4. Personnel cooperating or collaborating with, but not appointed nor paid by the Department of Agriculture (included in this group are: PMA County Committeemen, and county employees other than committeemen, extension agents, REA cooperatives, Civilian Public Service Assignees, crop reporters, etc). The number of these persons will be reported annually, as soon as possible after June 30 each year.

Decrease	- 318	- 275

Full-time employment of the Department of Agriculture numbered 68,951 on July 31, 1950, as compared with 68,739 on June 30, 1950. Part-time and intermittent employment totaled 13,216 compared with 15,358 on June 30, 1950.

Total paid employment on July 31, 1950, was 82,167, a decrease of 1,930 from the June 30, 1950 revised figure. This figure applies to total paid employment in the Department including employees outside the continental limits of the United States and part-time workers as well as those regularly employed.

The decrease in part-time and intermittent employment in the Forest Service results from the end of the fire season in the eastern regions and the increase in the full-time employment was due to the Spruce Bark Beetle Control Program.

Decreases in the Bureau of Entomology and Plant Quarantine and the Soil Conservation Service were the result of curtailed seasonal activities.

The Bureau of Agricultural Economics decreased in part-time and intermittent employment due to the completion of enumerative surveys and the expiration of temporary appointments.

The decrease in the Office of the Administrator, Agricultural Research Administration was due to the transfer of full-time and part-time and intermittent employees to the Bureau of Plant Industry, Soils and Agricultural Engineering.

Increase in the part-time and intermittent employment of the Federal Crop Insurance Corporation resulted from seasonal activities.

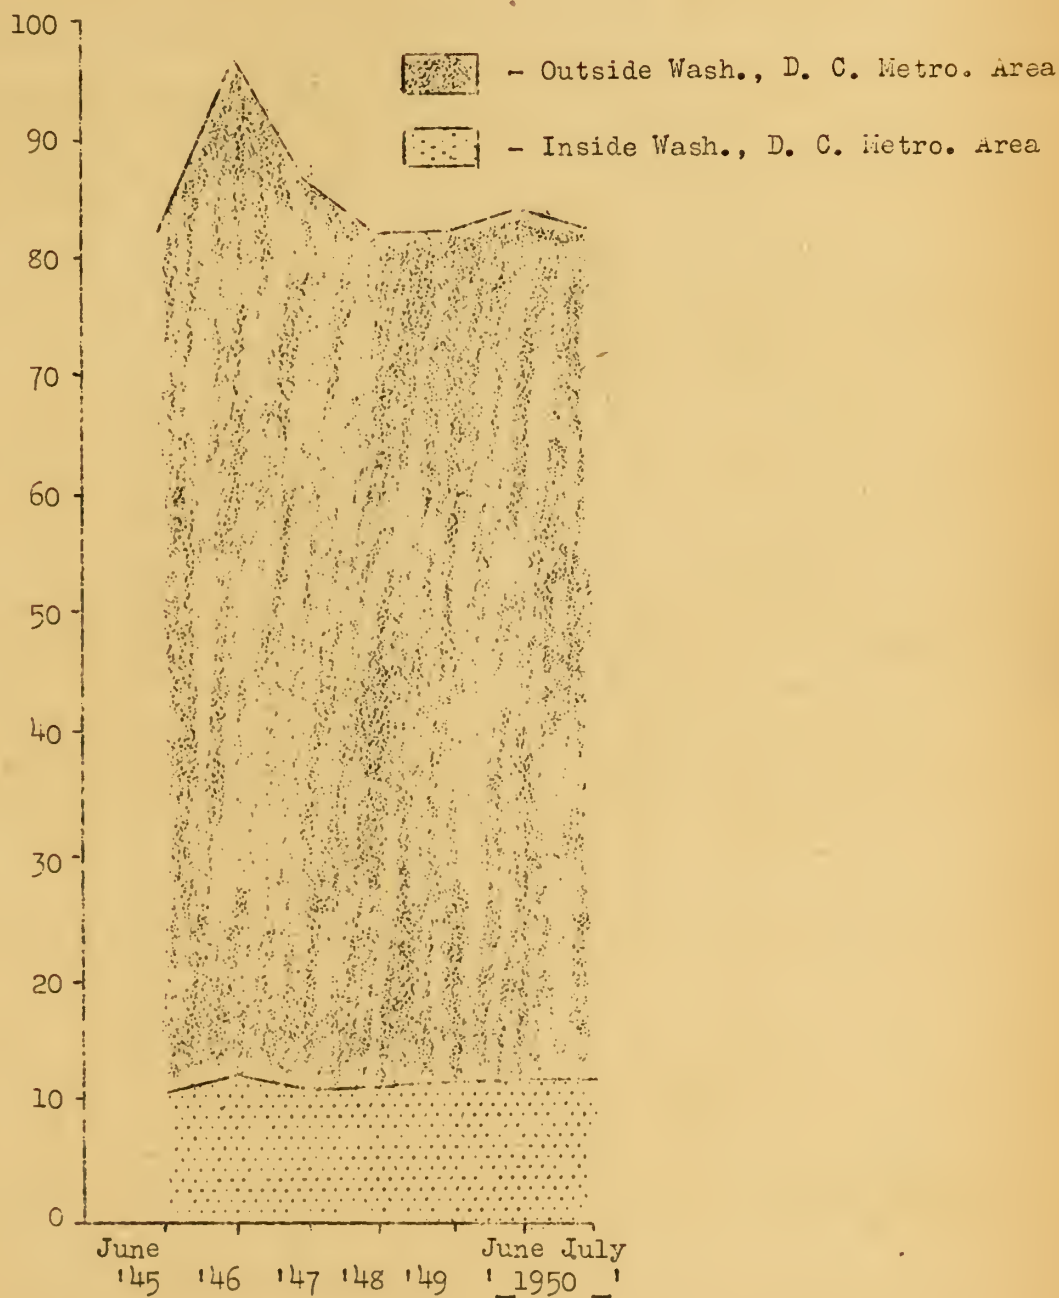

### TURNOVER

The separations from the Department for July, 1950, of total full-time personnel within the continental limits of the U. S., including temporary as well as regular salaried employees amounted to 3,263 or 4.9 percent. This represents an increase of 1.4 percent since June 30, 1950. There were 197 separations or 1.8 percent in the Washington, D. C., Metropolitan Area, an increase of 0.1 percent since June 30, 1950. Outside the Washington, D. C., Metropolitan Area there were 3,066 separations or 5.5 percent, an increase of 1.6 percent since June 30, 1950.

The greatest percentage of separations fall in the termination group which consists mainly of expiration of temporary appointments.

STATISTICAL SUMMARY OF EMPLOYMENT

August, 1950

Prepared by:  
Office of Personnel  
Division of Employment  
9-15-50

## DEFINITIONS OF TERMS USED FOR REPORTING PURPOSES

1. Full-time is the minimum number of hours constituting the official work week for a particular group or class of employees.
2. Part-time employees are those regularly employed on a pre-arranged schedule, whose hours or days of work are less than the prescribed hours or days of work for full-time employees in the same group or class.
3. Intermittent employees are those employed on an irregular or occasional basis whose hours or days of work are not based on a pre-arranged schedule and who are compensated only for the time when actually employed or for services actually rendered.
4. W.O.C. (Without Compensation) represents those engaged to perform services on a regular or intermittent basis whose appointment does not provide for salary or wage payments.
5. Casual employees are those hired informally "on the spot" for short intervals of time in connection with emergency work.
6. Persons on leave without pay are those currently in a nonpay status for scheduled periods longer than 30 days (other than furlough by reduction in force).
7. Washington, D. C. Metropolitan Area includes the District of Columbia; Alexandria City, Arlington and Fairfax Counties, Virginia; and Montgomery and Prince Georges Counties, Maryland.
8. Turnover Formula: Full-time accessions or separations divided by the average number of full-time employees for the period reported (the number of full-time employees at the end of the past period plus the number of full-time employees at the end of the period reported, divided by two.)

### SUMMARY OF GROUPS OF EMPLOYEES REGULARLY EXCLUDED FROM THE MONTHLY REPORTS

Except for exclusions as cited in headings or footnotes on tables in this summary the following persons are not included in any of the tables shown:

1. All persons on a scheduled leave without pay period longer than thirty days.
2. All persons placed on furlough by reason of reduction-in-force after the last day of active duty specified in the reduction-in-force notice.
3. Casual employees (those employees hired informally by pickup "on the spot", for a definite job usually of short duration, and includes such classes as harvest hands, laborers on forest roads and trail work emergency fire fighters). The number of casual employees will be reported from time to time when complete reports are received.
4. Personnel cooperating or collaborating with, but not appointed nor paid by the Department of Agriculture (included in this group are: PMA County Committeemen, and county employees other than committeemen, extension agents, REA cooperatives, Civilian Public Service Assignees, crop reporters, etc). The number of those persons will be reported annually, as soon as possible after June 30 each year.

No. of Empl. as of 8-31-50	55,008	57,120
Decrease	- 709	- 815

Full-time employment of the Department of Agriculture numbered 68,078 on August 31, 1950, as compared with 68,951 on July 31, 1950. Part-time and intermittent employment totaled 13,503 compared with 13,216 on July 31, 1950.

Total paid employment on August 31, 1950 was 81,581, a decrease of 586 from the July 31, 1950 figure. This figure applies to total paid employment in the Department, including employees outside the continental limits of the United States and part-time workers as well as those regularly employed.

Decreases in the Bureau of Entomology and Plant Quarantine, the Soil Conservation Service and the Forest Service were the result of curtailed seasonal activities.

The increase in the Production and Marketing Administration was due to the reflection of the Milk Marketing Administration employment.

More Committeemen performed service during the reporting month, which accounts for the increase in the part-time and intermittent employment in the Farmers Home Administration.

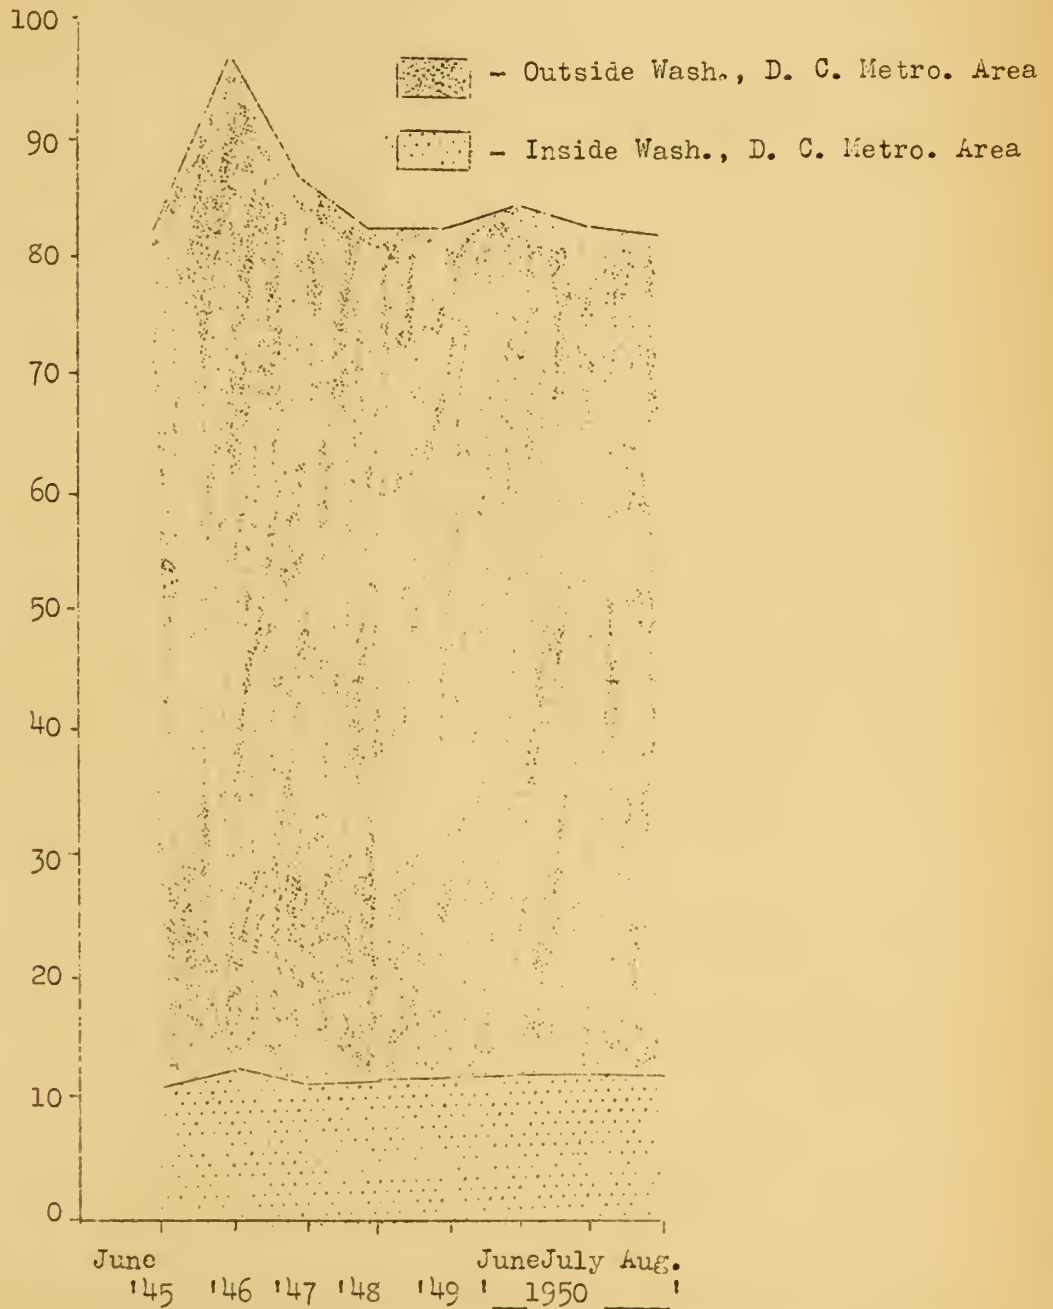

### TURNOVER

The separations from the Department for August, 1950, of total full-time personnel within the continental limits of the United States, including temporary as well as regular salaried employees amounted to 3,826 or 5.8 percent. This represents an increase of 0.9 percent since July 31, 1950. There were 179 separations or 1.6 percent in the Washington, D. C. Metropolitan Area, a decrease of 0.2 percent since July 31, 1950. Outside the Washington, D. C. Metropolitan Area there were 3,647 separations or 6.6 percent, an increase of 1.1 percent for the same period.

The greatest percentage of separations fall in the termination group which consists mainly of expiration of temporary appointments.

Full-time employment of the Department of Agriculture numbered 63,178 on September 30, 1950, as compared with 68,739 on June 30, 1950. Part-time and intermittent employees totaled 12,120 compared with 15,358 on June 30, 1950.

Total paid employment on September 30, 1950, was 75,298, a decrease of 8,799 from the June 30, 1950 revised figure. This figure applies to total paid employment in the Department, including employees outside the continental limits of the United States, and part-time workers as well as those regularly employed.

The Bureau of Agricultural Economics decreased in part-time and intermittent employment during this quarter due to the completion of enumerative surveys and the expiration of temporary appointments.

The decrease in the Office of the Administrator, Agricultural Research Administration was due to the transfer of full-time and part-time and intermittent employees to the Bureau of Plant Industry, Soils and Agricultural Engineering.

Decreases in the Agricultural Research Center, the Bureau of Entomology and Plant Quarantine, the Bureau of Plant Industry, Soils and Agricultural Engineering and the Forest Service were the results of seasonal activities.

The apparent decrease in employment in the Office of Experiment Stations for this quarter was due to the converting of temporary full-time employees to temporary w.a.e. basis.

The decrease in the Soil Conservation Service personnel was due to employees entering the military service; G.I. Educational leave without pay; resignations; and termination of part-time seasonal workers.

The reduction in the Bureau of Animal Industry was due largely to decrease in foot-and-mouth program activities in Mexico and to non-filling of vacancies in the U. S.

The increase in the Production and Marketing Administration was due to the reflection of the Milk Marketing Administration employment.

More Committeemen performed service during the quarter, which accounts for the increase in the part-time and intermittent employment in the Farmers Home Administration.

Full-time employment of the Department of Agriculture numbered 63,178 on September 30, 1950, as compared with 68,078 on August 31, 1950. Part-time and intermittent employment totaled 12,120 compared with 13,503 on August 31, 1950.

Total paid employment on September 30, 1950 was 75,298, a decrease of 6,283 since August 31, 1950. This figure applies to total paid employment in the Department including employees outside the continental limits of the United States and part-time workers as well as those regularly employed.

Decreases in the Bureau of Entomology and Plant Quarantine, the Bureau of Plant Industry, Soils and Agricultural Engineering and the Forest Service were the results of seasonal activities.

The reduction in the Bureau of Animal Industry was due largely to the decrease in foot-and-mouth program activities in Mexico and to non-filling of vacancies in the U. S.

The decrease in the Soil Conservation Service personnel was due to employees entering the military service; G.I. Educational leave without pay; resignations; and termination of part-time seasonal workers.

#### CASUAL EMPLOYMENT

Casual employees (not included in the regular monthly reports of employment) are reported whenever information is received. For the month of August, 1950, there were 11,134 Casual employees in the Department representing an increase of 616 since the July, 1950 figure. The Forest Service was the only bureau employing casual

personnel during the month of August, 1950.

#### FEMALE EMPLOYMENT

##### FIRST QUARTER, FISCAL YEAR, 1951

There was a decrease of 959 in the total paid female employees of the Department since the June 30, 1950 revised figure. The total number of paid female employees, 17,277 on September 30, 1950 represents 22.9 percent of the total paid employees of the Department.

#### PERSONNEL TURNOVER

##### FIRST QUARTER, FISCAL YEAR, 1951

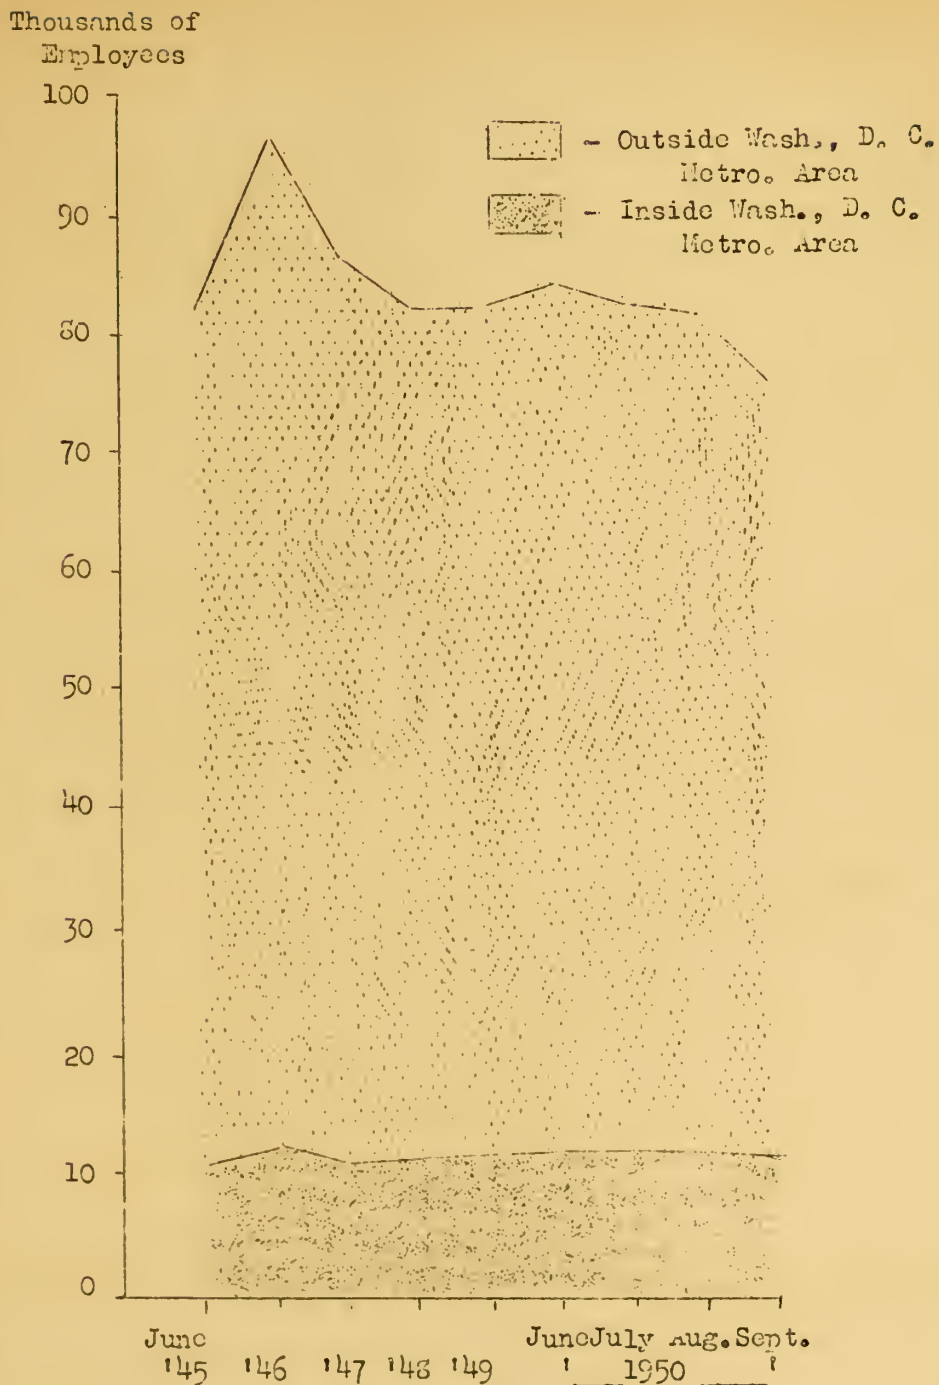

Accessions to regular full-time employees totaled 8,991 during the quarter ending September 30, 1950, excluding transfers between reporting units. There were 6,196 excepted appointments; 158 inter-agency transfers; 7 reemployments and returns from military service; 505 returns to duty; 191 reinstatements; 419 probationary appointments; 1,312 temporary appointments for a limited period; and 203 temporary appointments for an indefinite period. Excepted appointments represent 68.9 percent of all accessions to the Department. The accession rate of full-time personnel for the first quarter of the Fiscal Year was 14.1 percent. This represents a decrease of 7.9 percent from the fourth quarter of the Fiscal Year 1950.

Separations of regular full-time personnel from the Department amounted to 14,263 during the first quarter and consisted of 227 inter-agency transfers; 277 military furloughs; 4595 who quit; 66 by removals, disqualifications, and inefficiency; 336 by reduction in force; 394 extended leave without pay; 8,132 by termination; and 236 others. The separation rate for the same period was 22.3 percent. The rates for the Washington Area were: Separations 5.8 percent, accessions 3.4 percent, an excess of separations over accessions of 2.4 percent. The rates for outside the Washington Area were: Separations 25.8 percent, accessions 16.3 percent, an excess of separations over accessions of 9.5 percent.

The turnover rate excluding the separations of temporary limited personnel and the separations due to reduction in force for the first quarter of the fiscal year 1951 was 9.0 percent and for the month of September 5.6 percent.

STATISTICAL SUMMARY OF EMPLOYMENT

October, 1950

Prepared by:  
Office of Personnel  
Division of Employment  
11-16-50

## DEFINITIONS OF TERMS USED FOR REPORTING PURPOSES

1. Full-time is the minimum number of hours constituting the official work week for a particular group or class of employees.
2. Part-time employees are those regularly employed on a pre-arranged schedule, whose hours or days of work are less than the prescribed hours or days of work for full-time employees in the same group or class.
3. Intermittent employees are those employed on an irregular or occasional basis whose hours or days of work are not based on a pre-arranged schedule and who are compensated only for the time when actually employed or for services actually rendered.
4. W.O.C. (Without Compensation) represents those engaged to perform services on a regular or intermittent basis whose appointment does not provide for salary or wage payments.
5. Casual employees are those hired informally "on the spot" for short intervals of time in connection with emergency work.
6. Persons on leave without pay are those currently in a nonpay status for scheduled periods longer than 30 days (other than furlough by reduction in force).
7. Washington, D. C. Metropolitan Area includes the District of Columbia; Alexandria City, Arlington and Fairfax Counties, Virginia; and Montgomery and Prince Georges Counties, Maryland.
8. Turnover Formula: Full-time accessions or separations divided by the average number of full-time employees for the period reported (the number of full-time employees at the end of the past period plus the number of full-time employees at the end of the period reported, divided by two.)

### SUMMARY OF GROUPS OF EMPLOYEES REGULARLY EXCLUDED FROM THE MONTHLY REPORTS

Except for exclusions as cited in headings or footnotes on tables in this summary the following persons are not included in any of the tables shown:

1. All persons on a scheduled leave without pay period longer than thirty days.
2. All persons placed on furlough by reason of reduction-in-force after the last day of active duty specified in the reduction-in-force notice.
3. Casual employees (those employees hired informally by pickup "on the spot", for a definite job usually of short duration, and includes such classes as harvest hands, laborers on forest roads and trail work emergency fire fighters). The number of casual employees will be reported from time to time when complete reports are received.
4. Personnel cooperating or collaborating with, but not appointed nor paid by the Department of Agriculture (included in this group are: PMA County Committeemen, and county employees other than committeemen, extension agents, REA cooperatives, Civilian Public Service Assignees. crop reports, etc). The number of those persons will be reported annually, as soon as possible after June 30 each year.

Decrease	- 1,993	- 2,096

Full-time employment of the Department of Agriculture numbered 61,037 on October 31, 1950, as compared with 63,178 on September 30, 1950. Part-time and intermittent employment totaled 11,031 compared with 12,120 on September 30, 1950.

Total paid employment on October 31, 1950 was 72,068, a decrease of 3,230 from the September 30, 1950 figure. This figure applies to total paid employment in the Department, including employees outside the continental limits of the United States and part-time workers as well as those regularly employed.

Decreases in the Bureau of Entomology and Plant Quarantine, the Bureau of Plant Industry, Soils and Agricultural Engineering and the Forest Service were the result of curtailed seasonal activities.

The decrease in the Bureau of Animal Industry was due to the reduction in foot-and-mouth program activities in Mexico and to the non-filling of vacancies in the United States.

Fewer Committeemen performed service during the reporting month, which accounts for the decrease in the part-time and intermittent employment in the Farmers Home Administration.

The slight increase in employment in the Production and Marketing Administration was due to seasonal activities and normal turnover.

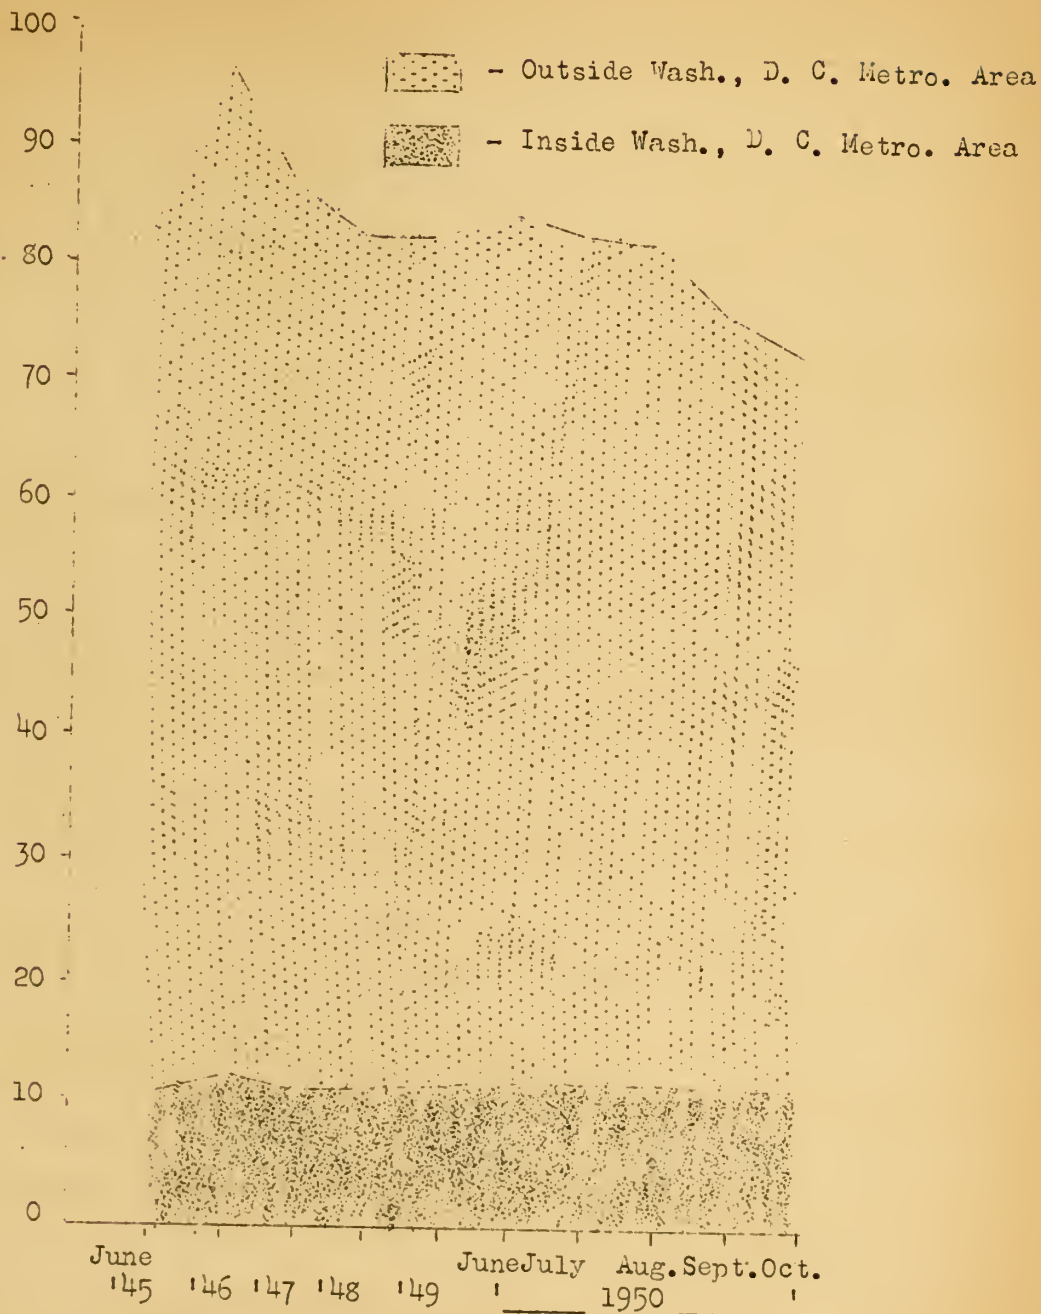

### TURNOVER

The separations from the Department for October, 1950, of total full-time personnel within the continental limits of the United States, including temporary as well as regular salaried employees amounted to 3,810 or 6.3 percent. This represents a decrease of 5.0 percent since September 30, 1950. There were 196 separations or 1.8 percent in the Washington, D. C. Metropolitan Area, a decrease of 0.5 percent since September 30, 1950. Outside the Washington, D. C. Metropolitan Area there were 3,614 separations or 7.3 percent, a decrease of 5.8 percent for the same period.

The greatest percentage of separations fall in the termination group which consists mainly of expiration of temporary appointments.

Decrease	- 1,265	- 1,285

Full-time employment of the Department of Agriculture numbered 59,712 on November 30, 1950, as compared with 61,037 on October 31, 1950. Part-time and intermittent employment totaled 11,339 compared with 11,031 on October 31, 1950.

Total paid employment on November 30, 1950 was 71,051, a decrease of 1,017 from the October 31, 1950 figure. This figure applies to total paid employment in the Department, including employees outside the continental limits of the United States and part-time workers as well as those regularly employed.

The decrease in the Bureau of Animal Industry was due to reduction in the foot-and-mouth program activities in Mexico.

The decrease in the Forest Service was due to the curtailment of fire control activities and the weather conditions in some sections of the country which curtailed construction and repair work.

More Committeemen performed service during the reporting month, which accounts for the increase in the part-time and intermittent employment in the Farmers Home Administration. The increase in the full-time employment in the Farmers Home Administration was due to the necessity of additional personnel to administer the Disaster Loan Program.

The increase in the part-time and intermittent personnel in the Soil Conservation Service was due to the employment of part-time seasonal workers.

## TURNOVER

The separations from the Department for November, 1950, of total full-time personnel within the continental limits of the United States, including temporary as well as regular salaried employees amounted to 2,722 or 4.7 percent. This represents a decrease of 1.6 percent since October 31, 1950. There were 176 separations or 1.6 percent in the Washington, D. C. Metropolitan Area, a decrease of 0.2 percent since October 31, 1950. Outside the Washington, D. C. Metropolitan Area there were 2,546 separations or 5.3 percent, a decrease of 2.0 percent for the same period.

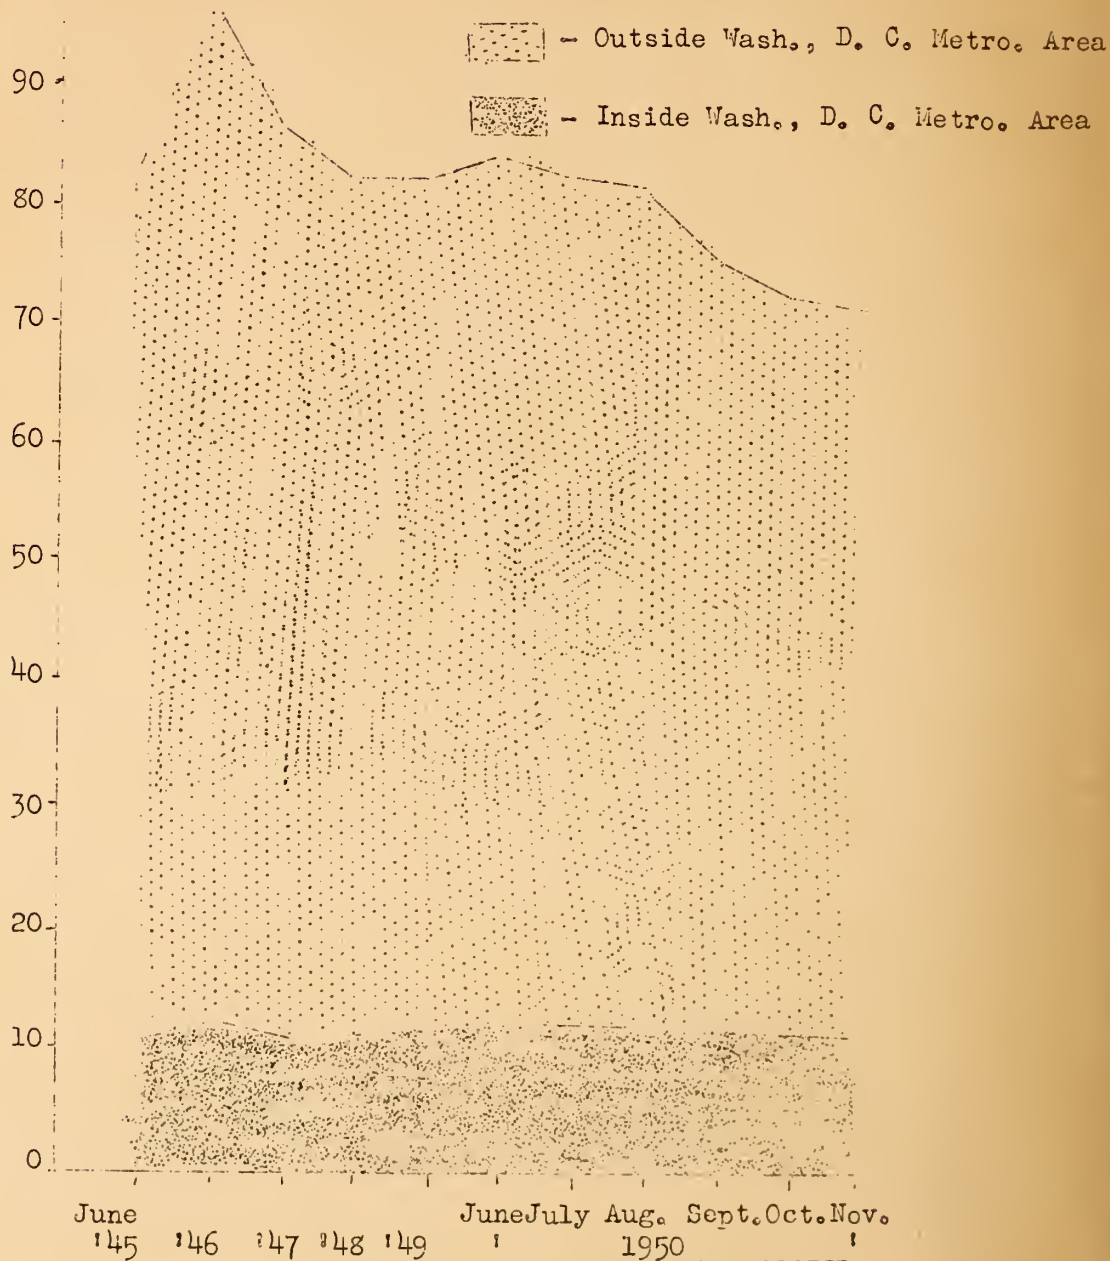

The greatest percentage of separations fall in the termination group which consists mainly of expiration of temporary appointments.

## DEFINITIONS OF TERMS USED FOR REPORTING PURPOSES

1. Full-time is the minimum number of hours constituting the official work week for a particular group or class of employees.
2. Part-time employees are those regularly employed on a pre-arranged schedule, whose hours or days of work are less than the prescribed hours or days of work for full-time employees in the same group or class.
3. Intermittent employees are those employed on an irregular or occasional basis whose hours or days of work are not based on a pre-arranged schedule and who are compensated only for the time when actually employed or for services actually rendered.
4. W.O.C. (Without Compensation) represents those engaged to perform services on a regular or intermittent basis whose appointment does not provide for salary or wage payments.
5. Casual employees are those hired informally "on the spot" for short intervals of time in connection with emergency work.
6. Persons on leave without pay are those currently in a nonpay status for scheduled periods longer than 30 days (other than furlough by reduction in force).
7. Washington, D. C. Metropolitan Area includes the District of Columbia; Alexandria City, Arlington and Fairfax Counties, Virginia; and Montgomery and Prince Georges Counties, Maryland.
8. Turnover Formula: Full-time accessions or separations divided by the average number of full-time employees for the period reported (the number of full-time employees at the end of the past period plus the number of full-time employees at the end of the period reported, divided by two.)

### SUMMARY OF GROUPS OF EMPLOYEES REGULARLY EXCLUDED FROM THE MONTHLY REPORTS

Except for exclusions as cited in headings or footnotes on tables in this summary the following persons are not included in any of the tables shown:

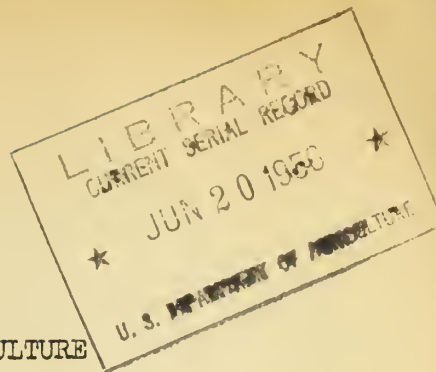

1. All persons on a scheduled leave without pay period longer than thirty days.
2. All persons placed on furlough by reason of reduction-in-force after the last day of active duty specified in the reduction-in-force notice.
3. Casual employees (those employees hired informally by pickup "on the spot", for a definite job usually of short duration, and includes such classes as harvest hands, laborers on forest roads and trail work emergency fire fighters). The number of casual employees will be reported from time to time when complete reports are received.
4. Personnel cooperating or collaborating with, but not appointed nor paid by the Department of Agriculture (included in this group are: PMA County Committeemen, and county employees other than committeemen, extension agents, FFA cooperatives, Civilian Public Service Assignees, Crop reporters, etc). The number of those persons will be reported annually, as soon as possible after June 30 each year.

Decrease	- 4,340	- 4,501

Full-time employment of the Department of Agriculture numbered 58,590 on December 31, 1950, as compared with 63,178 on September 30, 1950. Part-time and intermittent employees totaled 10,889 compared with 12,120 on September 30, 1950.

Total paid employment on December 31, 1950, was 69,479, a decrease of 5,819 from the September 30, 1950 figure. This figure applies to total paid employment in the Department, including employees outside the continental limits of the United States, and part-time workers as well as those regularly employed.

Decreases in the Bureau of Entomology and Plant Quarantine, the Bureau of Plant Industry, Soils and Agricultural Engineering and the Forest Service were the results of seasonal activities.

The decrease in the Bureau of Animal Industry was due to reduction in the foot-and-mouth disease program activities in Mexico.

Fewer Committeemen performed service during the quarter, which accounts for the decrease in the part-time and intermittent employment in the Farmers Home Administration.

The increase in the part-time and intermittent personnel in the Soil Conservation Service was due to the employment of part-time seasonal workers.

No. of Empl. as of 12-31-50	<u>46,067</u>	<u>47,869</u>
Decrease	- 1,082	- 1,120

Full-time employment of the Department of Agriculture numbered 58,590 on December 31, 1950, as compared with 59,712 on November 30, 1950. Part-time and intermittent employment totaled 10,889 compared with 11,339 on November 30, 1950.

Total paid employment on December 31, 1950 was 69,479, a decrease of 1,572 from the November 30, 1950 figure. This figure applies to total paid employment in the Department, including employees outside the continental limits of the United States and part-time workers as well as those regularly employed.

Fewer Committeemen performed service during the reporting period, which accounts for the decrease in the part-time and intermittent employment in the Farmers Home Administration.

The decrease in the full-time and part-time and intermittent employment in the Forest Service was due to further curtailment of seasonal activities.

The decrease in the Production and Marketing Administration was due to seasonal activities and normal turnover.

CASUAL EMPLOYMENT

Casual employees (not included in the regular monthly reports of employment) are reported whenever information is received. For the month of November, 1950, there were 1,672 Casual employees in the Department representing a decrease of 1,759 since the October, 1950 figure. The Forest Service was the only bureau employing Casual personnel during the month of November, 1950.

FEMALE EMPLOYMENT

SECOND QUARTER, FISCAL YEAR, 1951

There was a decrease of 64 in the total paid female employees of the Department since September 30, 1950. The total number of paid female employees, 17,213 on December 31, 1950 represents 24.8 percent of the total paid employees of the Department.

## PERSONNEL TURNOVER

### SECOND QUARTER, FISCAL YEAR, 1951

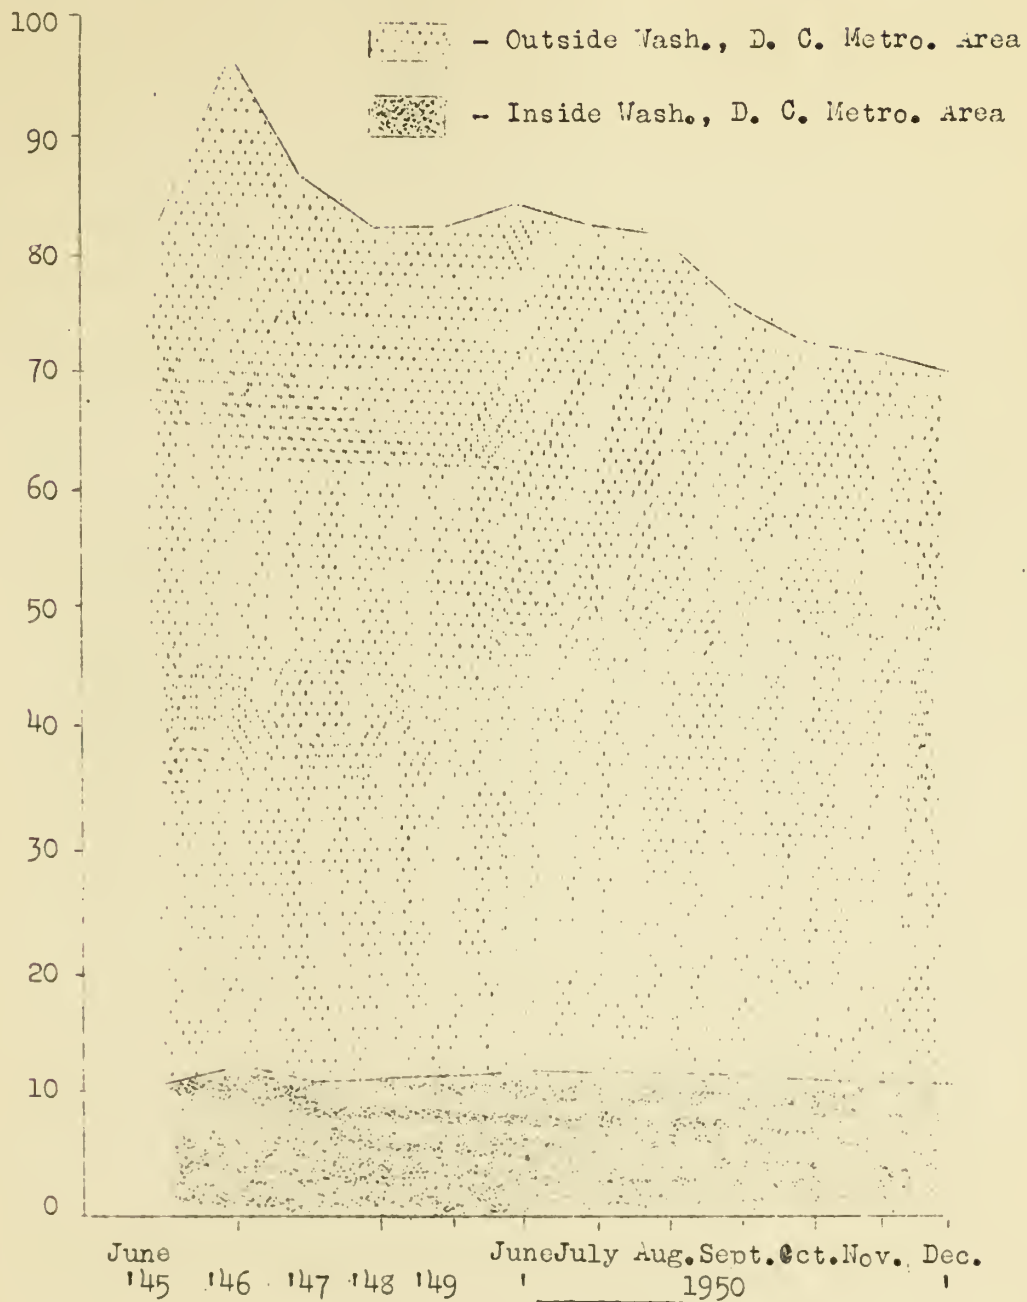

Accessions to regular full-time employees totaled 3,988 during the quarter ending December 31, 1950, excluding transfers between reporting units. There were 1,458 excepted appointments; 81 inter-agency transfers; 20 reemployments and returns from military service; 312 returns to duty; 149 reinstatements; 659 probationary appointments; 840 temporary appointments for a limited period; and 469 temporary appointments for an indefinite period. Excepted appointments represent 36.6 percent of all accessions to the Department. The accession rate of full-time personnel for the second quarter of the Fiscal Year was 6.9 percent. This represents a decrease of 7.2 percent from the first quarter of the Fiscal Year, 1951.

Separations of regular full-time personnel from the Department amounted to 8,523 during the second quarter and consisted of 257 inter-agency transfers; 331 military furloughs; 1,694 who quit; 23 by removals, disqualifications, and inefficiency; 316 by reduction in force; 624 extended leave without pay; 5,041 by termination; and 237 others. The separation rate for the same period was 14.7 percent. The rates for the Inside Washington Area were: Separations 4.7 percent, accessions 3.5 percent, an excess of separations over accessions of 1.2 percent. The rates for Outside the Washington Area were: Separations 17.0 percent, accessions 7.6 percent, an excess of separations over accessions of 9.4 percent.

The turnover rate excluding the separations of temporary limited personnel and the separations due to reduction in force for the second quarter of the fiscal year 1951 was 7.3 percent and for the month of December, 1.6 percent.
